Overview

Department of business has six full-time faculty along with twelve adjuncts faculties.

Dr. Zahra Mohebbi (Department Chair)

Dr Zahra Mohebbi (She/Her), in her educational background, she earned a PhD with specialization in cultural and heritage tourism, a Master of Science in Tourism and Hospitality Management, a Master of Arts in History, and a Bachelor of Science degree in

Dr. Edward W. Younkins

Edward W. Younkins is Professor of Accountancy and Business at Wheeling University, Executive Director of its Institute for the Study of Capitalism and Morality, and the founder of the university's undergraduate major in Political and Economic Philosophy. He is also

the founding director of the school's Master of Business Administration (MBA) and Master of Science in Accountancy (MSA) programs. He earned a Ph.D. in Accountancy from the University of Mississippi and earned state and national honors on the Certified Public Accountant (CPA) and Certified Management Accountant (CMA) exams, respectively. Dr. Younkins also received the Outstanding Educator Award for 1997 from the West Virginia Society of CPAs. He is on the editorial boards of Reason Papers and Libertarian Papers, the advisory board of the Journal of Ayn Rand Studies (JARS), the board of trustees of The Savvy

4

Street, and is series editor of Capitalist Thought: Studies in Philosophy, Politics, and Economics for Lexington Books. The author of numerous articles in accounting and business journals, he has also published in many free-market-oriented journals. He has authored or edited a dozen books including his trilogy of books on freedom and flourishing: Capitalism and Commerce, Champions of a Free Society, and Flourishing and Happiness in a Free Society.

Dr. David Corbett

Dr. David Corbett earned his B.S. and M.B.A. in Business Administration from California University of PA in 1992 and 1994, respectively. He excelled as an Account Executive at UPS for more than 7 years, consistently ranking in the top 5% nationwide for sales performance. Alongside his corporate success, he taught marketing at Ohio Valley University while

pursuing his Doctorate in Business Administration. Dr. Corbett later held positions as Assistant Professor of Business at West Virginia Wesleyan and Waynesburg University before joining Wheeling University, where he specializes in Marketing. He furthered his expertise with a Digital Marketing Certificate from West Virginia University in 2022.

Dr Alberto M. Poxes, Jr.

Dr Alberto M. Poxes, Jr. is an Associate Professor of Business and Sport Management at the Department of Business, Wheeling University. He has earned his Ph.D. in Higher Education Administration with emphasis in Sport Administration and an MS. in Sporty Administration

from University of Southern Mississippi. He is currently persuading a D.BA in Human Resource Management form Walden University. He earned his undergraduate degree from African Bible College in Malawi in Christina Education. His primary area of expertise is human resources management, principles of management, sports in society, sport law, ethics in sports, sport facility and event Management, and sport marketing. His current research interest focuses on the exploration of corporate social responsibility (CSR) as a strategy to motivate employees in organizations and plan to focus his research on examining the role of sport in social advancement of the under-representation of minority sport administrators in educational and professional levels. He has developed a teaching philosophy over the years that is a direct result of his interaction with students and other faculty members that reflects and emulates many people who have mentored him as he progressed in his teaching career. His teaching philosophy is comprised of service, this service can be noticed in three areas of teaching: as a role model, as a mentor, and as a leader in the classroom. He has couple of peer reviewed publications, and international conference presentations.

Prof. Lori Parry

Prof. Lori Parry (she/her) currently holds the position of Assistant Professor of Business at Wheeling University in Wheeling, WV, where her teaching responsibilities encompass business, accounting, and marketing courses. She earned her undergraduate degree in accounting (2000)

and MBA (2002) from Franklin University in Columbus, Ohio. Assistant Professor Parry furthered her education by obtaining a master's degree in human resource management from DeVry's Keller Graduate School of Business (2012). During her six-years (2018-2024) at Eastern Gateway Community College, Mrs. Parry advanced to the position of associate professor, specializing in accounting instruction. Additionally, she assumed the role of accounting program chair for a four-year period, demonstrating leadership and expertise within her academic field. Throughout a six-year span (2012-2018) at Zane State College, Assistant Professor Parry provided instruction in accounting courses and advanced to the position of assistant professor. Mrs. Parry presently holds a position as a board member of the Ohio Valley Educational Services Board Member. Moreover, she has contributed as assistant treasurer for two years and as statutory agent for one year at Faith United Methodist Church.

Dr. Colin Steitz

Colin Steitz is an Assistant Professor in Economics and Business in the Department of Business at Wheeling University. He graduated from Ball State University in 2018 with a B.S. in Economics and Minor in Mathematics. He went on to West Virginia University where

he began his Ph.D. in 2018 which he completed in December of 2023. He has published on right to work and voter preferences as well as the impact of multiday events on hotel occupancy.

Department of Business

Assessment Report

AN 2023-2024

Prepared by: Zahra Mohebbi, Ph.D.

# Department of Business (DOB) Assessment Report AY 2023-2024

#### Section A: Introduction/Background

#### **DOB** Mission:

The mission of the Wheeling University Business Department is to deliver high-quality business students that have learned the talents of leadership, social responsibility, and the core competencies of the business environment. The Department of Business programs empower students to use relevant business knowledge, think critically, analyze and solve problems, communicate effectively, and make decisions ethically and professionally.

#### Section A: Introduction/Background

Department of business at Wheeling University had to start its assessment process from scratch because there were no data available to previous years.

## DOB assessment task was focused and defined in three phases:

- Assessment Plans
- Create an assessment process to implement the proposed assessment plans
- Plan for future and improvement

In this process, DOB considered implementing and fulfilling the HLC, ACBSP, and the school requirements.

Section C: Assessment Method

Section B: Student Learning Outcomes Assessed

#### **First Phase of the Assessment Plan:**

DOB created a rubric for each program on a Likert scale of 0-4 as below:

Four (4): "Excellent"

Three (3): "Good"

Two (2): "Fair"

One (1): "Needs Improvement"

Zero (0): "Inadequate"

All the tables presented in the following pages are screenshots of the programs' PLOs that are available on the DOB Teams.

| BS.BA<br>PLOs                                                                                 | Exellent (4)                                                                                                                                                                                                                                                                             | Good(3)                                                                                                                                                                                                                    | Fair(2)                                                                                                                                                                                                                                      | Needs Improvment (1)                                                                                                                                     | Inadequate(0)                                                                                                                                                             |
|-----------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Demonstrate working knowledge<br>of basic concepts and principles<br>in business              | Shows an outstanding comprehension of<br>multiple business concepts and principles<br>through clear, comprehensive explanations.<br>Applies these concepts effectively in diverse<br>practical situations, showcasing a profound<br>understanding.                                       | Shows a proficient understanding of most<br>business concepts and principles with some<br>minor gaps. Applies most business concepts<br>appropriately in practical situations with<br>occasional errors.                   | Displays a competent<br>understanding of fundamental<br>business concepts, but lacks<br>depth or has significant gaps.<br>Attempts to apply business<br>concepts in practical situations,<br>but with frequent errors or<br>inconsistencies. | concepts, yet with noticeable                                                                                                                            | Shows little to no understanding<br>of basic business concepts. Falls<br>to apply business concepts in<br>practical situations.                                           |
| Demonstrate the value of<br>personal and professional<br>effective communication              | Communicates ideas clearly and coherently,<br>demonstrating exceptional clarity and<br>effectiveness. Demonstrates exceptional<br>adaptability in various communication contexts,<br>adjusting communication style effectively                                                           | Communicates ideas effectively with good<br>clarity and coherence. Adapts<br>communication style appropriately in<br>different contexts with minor issues                                                                  | Communicates ideas with some<br>clarity, but may lack coherence<br>at times. Attempts to adapt<br>communication style, but with<br>noticeable difficulties or<br>inconsistencies                                                             | Communication lacks clarity and<br>coherence, making it difficult to<br>understand. Shows limited<br>adaptability in different<br>communication contexts | Communication is unclear and<br>incoherent. Fails to adapt<br>communication style in various<br>contexts                                                                  |
| Critically analyze, think logically,<br>and apply analytical methods for<br>business problems | Demonstrates exceptional critical thinking and<br>logical reasoning in analyzing business<br>problems. Consistently and effectively applies a<br>variety of analytical methods to solve business<br>problems with precision                                                              | Shows proficient critical thinking and<br>logical reasoning skills in most situations.<br>Applies analytical methods appropriately in<br>most cases but may have some errors or<br>gaps                                    | Displays competent critical<br>thinking and logical reasoning<br>skills but may lack consistency<br>or depth. Attempts to apply<br>analytical methods but with<br>frequent errors or inadequate<br>understanding                             | analyzing business problems.                                                                                                                             | Fails to demonstrate critical<br>thinking and logical reasoning.<br>Fails to apply analytical methods<br>effectively                                                      |
| Demonstrate an appreciation of<br>ethical implications in<br>managerial functions             | Demonstrates exceptional understanding of<br>ethical considerations in managerial functions<br>with manaced insights and consistently applies<br>ethical principles. Consistently makes sound<br>ethical decisions in managerial contexts,<br>demonstrating exceptional ethical judgment | Shows a proficient understanding of ethical<br>implications in managerial functions and<br>generally applies ethical principles. Makes<br>mostly sound ethical decisions in managerial<br>contexts with occasional lapses. | Displays a competent<br>understanding of ethical<br>implications but may<br>inconsistently apply ethical<br>principles. Attempts ethical<br>decision-making but with<br>noticeable errors or<br>inconsistencies                              | implications in managerial<br>functions. Shows limited ability                                                                                           | Fails to understand or apply<br>ethical principles in managerial<br>functions. Fails to make ethical<br>decisions in managerial contexts                                  |
| Develop the capacity to work<br>harmoniously and effectively<br>with others                   | Actively collaborates and contributes<br>effectively to team goals, demonstrating<br>exceptional teamwork skills. Demonstrates<br>exceptional conflict resolution skills and<br>excellent interpersonal communication in all<br>situations                                               | Works well in a team, contributing<br>positively to achieve goals with few minor<br>issues. Displays good conflict resolution<br>skills and generally maintains positive<br>interpersonal relationships                    | collaborating or contributing<br>effectively. Exhibits some<br>conflict resolution skills but                                                                                                                                                | work in a team, often causing<br>disruptions or conflicts. Shows                                                                                         | Unable to work effectively in a<br>team setting, resulting in<br>hindrance to team goals. Fails to<br>resolve conflicts or maintain<br>positive relationships effectively |

| Demonstrate knowledge<br>of U.S. financial<br>reporting standards and<br>auditing standards for<br>corporate financial<br>reporting and<br>attestation. | Shows comprehensive<br>knowledge and<br>understanding of standards                                     | Demonstrates a solid<br>understanding of<br>standards                       | Shows some<br>understanding but lacks<br>depth or consistency       | Demonstrates limited<br>understanding of standards                            | Fails to demonstrate<br>knowledge of U.S. financial<br>reporting and auditing<br>standards |

# Second Phase of the Assessment Plan:

Create an assessment process to implement the proposed assessment plans.

At this phase, DOB, based on the PLOs of each program, assigned and selected courses for three categories of "I=Introductory", "A=Advanced", and "M=Mastery" to assess them in each academic year.

BS.BA courses for assessment within each PLO:

|         | CrHr | PLO1 | PLO2 | PLO3 | PLO4 | PLO5 |
|---------|------|------|------|------|------|------|
| BUSN115 | 3    |      |      |      |      |      |

DOB also assessing courses in regards to the school PEGs:

Section E: Future Actions/Program Improvement Plan

# Third Phase of the Assessment Plan: Plan for Future and Improvement

DOB continues to create data and assess courses based on the created plan and process. DOB' business major has five concentrations and each of them are 15 credit hours (5 required courses.). Based on the ACBSP, DOB needs to have at least one specific objective for each concentration that is more than 12 credit hours. DOB has already defined one objective for each concentration as presented below. DOB plans to assign at least two courses on three levels of (I, A, & M) to be able to assess each concentration next year.

# Human Resource Concentration CLO (Concentration Learning Objective):

To enhance both organizational performance and employee satisfaction by using strategic human resource management methods that draw in, nurture, involve, and keep top talent while promoting an innovative and continuous improvement culture.

# Management Concentration CLO (Concentration Learning Objective):

To gain the technical, interpersonal, conceptual, diagnostic, communication, and decisionmaking abilities required to perform managerial functions successfully.

### Marketing Concentration CLO (Concentration Learning Objective):

To identify a marketing problem, evaluate alternative solutions, and make a final recommendation that thoroughly addresses the problem based on making reasonable assumptions; considering appropriate customer, competitor, and company constraints; addressing the marketing issues; and demonstrating an understanding of the interrelationships of marketing concepts

# Financial Management Concentration CLO (Concentration Learning Objective):

- 1. To demonstrate knowledge of the core financial principles, tools and concepts
- 2. To identify and discuss the key current financial issues and events.
- 3. To comment and discuss core financial terms and conduct financial analysis.

### Sport Management Concentration CLO (Concentration Learning Objective):

To prepare students for careers in the sport business industry, collegiate athletics, recreational sport, and non-profit leisure and recreation organizations. It will help students' preparation for the successful application of the principles in the sport business upon graduation.

# **Benchmarks for Bachelor of Science in Accounting/Business/SPMT**

### Methodology

The Department of Business conducted research to determine the precise specifications for future exams and licensure required to locate the right career placement. The Department of Business examined and analyzed benchmarks required to obtain certification or licensure exams in order to establish an appropriate baseline for our students. The benchmarks listed below are based on CPA and GMAT exams, as well as IFPA, NIAAA, and CAA certifications.

# Program benchmark for ACCT major and MSA program:

#### BS. ACCT:

75%(Grade), and 2 or above (PLOs) are the benchmark for every accounting course and overall program benchmark in order to be able to take CPA exam successfully.

*Justification for ACCT benchmark:* The benchmark sat based on requirement for *CPA exam*. Department of business expected:

- 75% of freshman and sophomore students met the benchmark.
- 80% of junior and senior students met the benchmark.

### MSA program:

80% (grade) and 3 or above (PLOs) are the benchmark for every MSA graduate students. *Justification for MSA benchmark:* Students required to obtain a B or above in the majority of their classes, and they were only permitted to have two C+. and based on CPA exam requirement, 75% is the minimum requirement.

- 80% of students expected to meet the benchmark.

# Program benchmark for BUSN major and MBA program:

70% (grade), and 2 or above (PLOs) is the benchmark for every business course and the program in order to be able to take *GMAT exam* successfully.

# BS. BUSN:

#### Justification on BUSN benchmark:

- This benchmark sat based on the median passing rate for GMAT exam.

Department of business expected:

- 70% of freshman and sophomore students met the benchmark.
- 75% of junior and senior students met the benchmark.

#### MBA program:

80% (grade) and 3 or above (PLOs) is the benchmark for every MBA graduate student. *Justification for MBA benchmark:* Students required to obtain a B or above in the majority of their classes, and they were only permitted to have two C+.

- 80% of students expected to meet the benchmark.

# Program benchmark for SPMT major:

This benchmark put in place based on IFPA (International Fitness Professionals Association) as well as NIAAA (National Interscholastic Athletic Administrators Association) certification requirements. IFPA provides certification that are "the primary optional certifications for sports management professionals." The NIAAA Certification Program "is a voluntary professional service to athletic administrators and is based on the premises of continuing education, professional growth and program development in the vocation of interscholastic athletic administration."

# Benchmarks:

### Based on IFPA:

- Applicant need to score at least 80% to pass.

Benchmark:

- 75% (grade) and 2 or above (PLOs) of freshman and sophomore students met the benchmark.

- 80% (grade) and 2 or above (PLOs) of junior and senior students met the benchmark. *Based on NIAAA:* 

- First: Take CAA certification: assessment requiring 75% accuracy

#### Benchmark:

75% (grade) and 2 or above (PLOs) of freshman and sophomore students met the benchmark.

80% (grade) and 2 or above (PLOs) of junior and senior students met the benchmark.

- Second: Bachelor's Degree, or higher, from an accredited institution

**IMPORTANT STEP FOR US:** BS. in SPMT needs to be accredited by ACBSP. (Work in under-way)

# **BUSN/ACCT Program Course Evaluation Fall 23**

# **Course Name: Principles of MGMT**

Course Number: BUSN-211-01

Instructor: Matthew DeSantis

# Term: FallYear: 2023Instructional Student Learning Outcomes:

Management is the process of working with and through people to obtain organizational objectives. The introductory level survey course examines the management functions of organization, controlling, leading and planning. General Systems Theory will be emphasized as an analytical tool. Supervisory behavior and skills will be key topics.

# **Program Student Learning Outcomes:**

Demonstrate working knowledge of the basic concepts and principles that apply to the functional and operational areas of business.

Demonstrate the value of personal and professional effective communication.

Demonstrate an appreciation of ethical implications involved in performing managerial functions.

Critically analyze, think logically, and apply analytical methods and skills for business problems. Develop the capacity to work harmoniously and effectively with others.

# Strengths of this course:

# Grade distribution :

| 10 | Α  | 0 | C+ |
|----|----|---|----|
| 0  | А- | 3 | С  |
| 0  | B+ | 0 | F  |
| 8  | В  | 0 | Ι  |
| 0  | В- | 0 |    |

# **Comment on grades :**

The papers were underwritten and not to standard at the beginning of the course. By adding indepth expectations and proper resources and references future courses would benefit. Improvements for next year:

Adjust Canvas view and layouts for ease of use for students.

Cover writing style and expectations prior to first paper assignment.

# **Course Outcomes Assessed:**

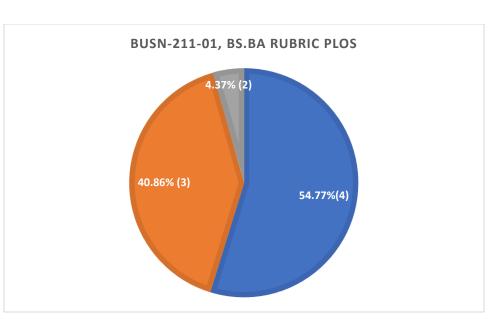

| Key 5 Course | Assessment      | Criteria for               | Summary of                     | Use of Data     |
|--------------|-----------------|----------------------------|--------------------------------|-----------------|
| Outcomes     | Method          | Success                    | Data                           |                 |

# Data Analysis—Strengths of this course:

Based on grades analysis: 86.16% of students met the benchmark.

Based on above outcome from BSBA analysis out of 22 students being scored 22 students (92.41) of them pass the course with high satisfactory grade, benchmark of 3 and 4. The highest score was 4 and highest score earned was 4 and lowest score earned was 2, and the mean score is 3. All results show this course was able to meet its PLOs. Students scored based on five major questions that considered major management functions, management communication, management ethical decision making, and leadership.

**Data Analysis—Improvements, such as changes in pedagogy, curriculum revision etc.:** This course lays the foundation for all management careers and provides students with a comprehensive understanding of the field. All topics that a manager has to be knowledgeable about are included in the contents.

#### **Benchmarks:**

At department level, we are thinking to work on two types of benchmarks.

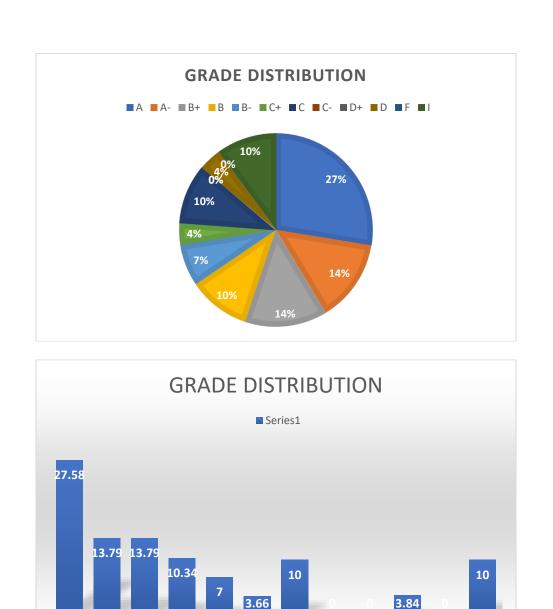

1. <u>Program Benchmark:</u> for the whole program

2. <u>*Performance Benchmark:*</u> for each course Performance. Benchmark for this course: Since all my students for this course are freshman and totally new to the subject and based on previous experience, we consider grade 75% as being the benchmark for this course grade (it means grade C and above.), and 3 & 4 for BS.BA rubric.

#### **Grade Distribution :**

| 8 | A (27.58%)  | 1 | C+(3.66%) |
|---|-------------|---|-----------|
| 4 | A- (13.79%) | 3 | C (10%)   |
| 4 | B+(13.79%)  | 0 | C- (0%)   |
| 3 | B (10.34%)  | 0 | D+ (0%)   |
| 2 | B- (7%)     | 1 | D (3.84%) |

| 0 | F (0%)  |
|---|---------|
| 3 | I (10%) |

#### **Comment on Grades:**

А

A-

B+

Comment on Grades: 86.16% of students met the benchmark that is grade C and above. Majority of students 41.37% earned grade A & A-and 31.13% Bs.

# Course Name: Business Statistics

Term: Fall Year: 2023

### Instructional Student Learning Outcomes:

Organize and display data in a meaningful way and communicate its essential features using tables and charts

Compute and interpret summary measures of data, especially measures of central tendency and dispersion.

Apply basic probability, probability distributions (especially the Standard Normal Distribution), and sampling distributions to problems and to real data.

Conduct and interpret confidence interval estimation and hypothesis testing.

Conduct and interpret correlation analysis and simple linear regression analysis.

# **Program Student Learning Outcomes:**

Demonstrate working knowledge of the basic concepts and principles that apply to the functional and operational areas of business.

Demonstrate the value of personal and professional effective communication.

Demonstrate an appreciation of ethical implications involved in performing managerial functions.

Critically analyze, think logically, and apply analytical methods and skills for business problems.

Develop the capacity to work harmoniously and effectively with others.

### Strengths of this course:

Covers essential topics in applied statistics to Business concepts.

Provides an accessible text, with plenty of example problems.

# Grade distribution:

| 13 | Α          | 0 | C+ |
|----|------------|---|----|
| 0  | А-         | 4 | С  |
| 0  | <b>B</b> + | 0 | F  |
| 13 | В          | 0 | Ι  |
| 0  | <b>B-</b>  |   |    |

# **Comments on grades:**

The grades are in the solid A toB range with a few students poorly. Overall, the grade distribution of the class suggests that the teaching approach were effective.

# Improvements for next year:

Work on Class engagement. Provide engagement opportunities and get them to see the material in their own life. Try to provide more real life examples.

#### **Course Outcomes Assessed:**

| Key 5 Course Outcomes    | Assessment       | Criteria for     | Summary of Data       |  |
|--------------------------|------------------|------------------|-----------------------|--|
|                          | Method           | Success          |                       |  |
| Organize and display     | Homework, Tests, | A grade of 75 or | All students met this |  |
| data in a meaningful way | and Final        | above.           | benchmark. Results    |  |
| and communicate its      |                  |                  | indicates students'   |  |
| essential features using |                  |                  | understanding of the  |  |
| tables and charts        |                  |                  | subject. Thus, course |  |
|                          |                  |                  | objective was         |  |
|                          |                  |                  | successfully achieved |  |

#### **Course name: Macroeconomics**

### Course Number: ECON-211-01

Instructor: Dr. Colin Steitz

# Term:FallYear:2023Instructional Student Learning Outcomes:

Demonstrate knowledge of the core economic goals

and concepts.

Identify and discuss the key macroeconomics problems/current events.

Comment and discuss the potential solutions to macroeconomics problems

### **Program Student Learning Outcomes:**

Demonstrate working knowledge of the basic concepts and principles that apply to the functional and operational areas of business.

Demonstrate the value of personal and professional effective communication.

Demonstrate an appreciation of ethical implications involved in performing managerial functions.

Critically analyze, think logically, and apply analytical methods and skills for business problems.

Develop the capacity to work harmoniously and effectively with others.

### Strengths of this course:

The course was able to cover a wide breadth of material with easy to approach text. Provides ample work for students to review.

Encourages application of course work via a group project.

# Grade distribution:

| 5 | А  | 0 | C+ |
|---|----|---|----|
| 4 | A- | 2 | С  |
| 4 | B+ | 2 | F  |
| 6 | В  | 1 | Ι  |
| 2 | B- |   |    |

#### **Comment on grades :**

The grade distribution is in the solid B to B+ range. Overall while there were two students who failed to engage with the course, the rest did fairly well. Overall no major concerns over the grades.

# Improvements for next year:

Work on Class engagement. Go slower through the material and try to work on engaging with the students to get them to try and apply the material to examples. Provide engagement opportunities and get them to see the material in their own life.

#### **Course name: Macroeconomics**

#### **Course Number: ECON-211-02**

Term: Fall

Year: 2023

Instructor: Dr. Colin Steitz

#### **Instructional Student Learning Outcomes:**

Demonstrate knowledge of the core economic goals and concepts.

Identify and discuss the key macroeconomics problems/current events.

Comment and discuss the potential solutions to macroeconomics problems

#### **Program Student Learning Outcomes:**

Demonstrate working knowledge of the basic concepts and principles that apply to the functional and operational areas of business.

Demonstrate the value of personal and professional effective communication.

Demonstrate an appreciation of ethical implications involved in performing managerial functions.

Critically analyze, think logically, and apply analytical methods and skills for business problems.

Develop the capacity to work harmoniously and effectively with others.

#### Strengths of this course:

The course was able to cover a wide breadth of material with easy to approach text. Provides ample work for students to review.

Encourages application of course work via a group project. Grade distribution:

| 8 | А  | 1 | C+ |
|---|----|---|----|
| 8 | A- | 1 | С  |
| 2 | B+ | 0 | F  |
| 3 | В  | 1 | Ι  |
| 1 | B- |   |    |

#### **Comments on grades:**

The grades are in the solid B+ to A- range with a few students doing poorly. Overall, the grade distribution of the class suggests that the teaching approach were effective and the students were successful in their studies

#### **Improvements for next year:**

Work on Class engagement. Go slower through the material and try to work on engaging with the students to get them to try and apply the material to examples. Provide engagement opportunities and get them to see the material in their own life.

| Key 5 Course | Assessment Method | Criteria for | Summary of Data |
|--------------|-------------------|--------------|-----------------|
| Outcomes     |                   | Success      |                 |
|              |                   |              |                 |

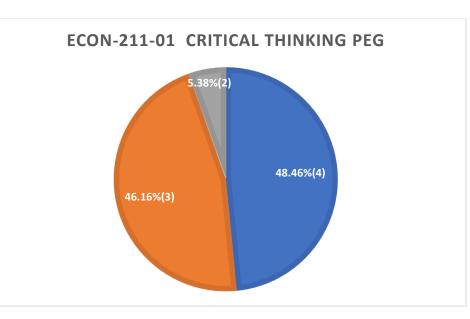

| Demonstrate<br>knowledge of the<br>core economic<br>goals and<br>concepts.            | Homework, Group<br>Project, Quizzes, and<br>Final | A grade of C/74 or above.    | Almost all students met this<br>benchmark. Results indicates<br>students' understanding of the<br>subject. Thus, course objective<br>was successfully achieved |
|---------------------------------------------------------------------------------------|---------------------------------------------------|------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Identify and<br>discuss the key<br>macroeconomics<br>problems/current<br>events.      | Homework, Group<br>Project, Quizzes, and<br>Final | A grade of C/74 or above.    | Almost all students met this<br>benchmark. Results indicates<br>students' understanding of the<br>subject. Thus, course objective<br>was successfully achieved |
| Comment and<br>discuss the<br>potential<br>solutions to<br>macroeconomics<br>problems | Homework, Group<br>Project, Quizzes, and<br>Final | A grade of C/74 or<br>above. | Almost all students met this<br>benchmark. Results indicates<br>students' understanding of the<br>subject. Thus, course objective<br>was successfully achieved |

#### **Course name: Microeconomics**

### Course Number: ECON- 212-01

Instructor: Dr. Colin Steitz

Term: Fall Year: 2023

**Instructional Student Learning Outcomes:** 

Explain the fundamentals of economic thinking the

use of economic resources.

Use a production possibilities curve to explain opportunity costs and efficient use of economic resources.

Predict the effects of changes in demand and supply on equilibrium

price and quantity.

Calculate and assess elasticity coefficients and apply the total revenue test to price elasticity of demand.

Assess market failures and recommend policies to correct market failures.

Investigate how firms determine price and quantity based on the four different market structures (pure competition, pure monopoly, monopolistic competition, and oligopoly), comparing outcomes and efficiency of the industries.

# **Program Student Learning Outcomes:**

Demonstrate working knowledge of the basic concepts and principles that apply to the functional and operational areas of business.

Demonstrate the value of personal and professional effective communication.

Demonstrate an appreciation of ethical implications involved in performing managerial functions.

Critically analyze, think logically, and apply analytical methods and skills for business problems.

Develop the capacity to work harmoniously and effectively with others.

# Strengths of this course:

Covers a wide range of Microeconomic topics, with a relatively easy to approach style. Provides ample work for students to review.

Encourages application of course work via a group project.

# Grade distribution:

| 1  | А  | 2 | C+ |
|----|----|---|----|
| 2  | A- | 1 | С  |
| 0  | B+ | 0 | F  |
| 10 | В  | 1 | Ι  |
| 4  | В- |   |    |

# **Comments on grades:**

The grades are in the solid B range with a few students doing well and a few doing poorly. I wonder if they became less engaged or the micro-topics are more difficult than how the book

series presents macro topics. Overall, the grade distribution of the class suggests that the teaching approach were effective.

### Improvements for next year:

Work on Class engagement. Go slower through the material and try to work on engaging with the students to get them to try and apply the material to examples. Provide engagement opportunities and get them to see the material in their own life.

#### **Course Name: Principles of Accounting I**

#### **Course Number: ACCT-201-01**

Term: Fall

Year: 2023

# Instructor: Dr. Ed Younkins

Instructional Student and Program Learning Outcomes, including PEGs: Instructional Student Learning Outcome:

- 1. Have a broad view of accounting's role in satisfying society's need for (financial) information to include the needs of investors, creditors, regulatory agencies and taxing authorities. This will also include the history and ethics responsibilities of the accounting profession and the role of auditing in enhancing the credibility of publicly reported information. (BT1, 2)
- 2. Understand the principles underlying the design, integrity, and effectiveness of accounting information systems, including the basic components of internal control, the accountant's professional code of conduct, and the significance of debits and credits as they are used in an accounting system. (BT1,2)
- 3. Demonstrate a basic knowledge of the fundamental principles underlying the subject of accounting. (BT3)
- 4. Process routine transactions for a service company through the steps in the accounting cycle. (BT3)
- 5. Process routing transactions for a merchandising company through the steps in the accounting cycle. (BT3)

#### **Program Learning Outcomes**

- 1. Explain, integrate, and perform basic fundamental concepts in accounting, finance, marketing, management, and economics
- 2. Critically analyze, think logically, and apply analytical methods and skills for business problems
- 3. Explain the ethical implications and responsibilities of ensuring integrity of financial integrity
- 4. Demonstrate the value of personal and professional effective communication
- 5. Apply knowledge of GAAP, FASB, GASB, and managerial accounting theories to businesses, state and local governments, and nonprofit organizations
- 6. Apply knowledge and understanding of federal tax laws and procedures on businesses and individuals

| 5 Key Course Outcomes                                                                                                                                                                                                                                                 | Learning Activities/<br>Assignments | Benchmarks/<br>Performance Indicator | Results  |

**Comment on Grades:** 

#### Course Name: Prin. of Accounting II

# Course Number: ACCT- 202-01

Term: Fall

# Instructor: Dr. Ed Younkins

Instructional Student and Program Learning Outcomes, including PEGs: Instructional Student Learning Outcome:

Year: 2023

1. Define management accounting; (BT1)

- 2. Have an understanding of business ethics, especially ethics related to accounting; (BT2)
- 3. Define cost drivers and calculate cost costs using a variety of cost drivers; (BT1,2,3)
- 4. Use cost-volume-profit analysis in decision taking; (BT3,4,5)
- 5. Establish and use Activity-Based Costing; (BT3,4,5)

#### **Program Learning Outcomes**

- -Explain, integrate, and perform basic fundamental concepts in accounting, finance, marketing, management, and economics
- -Critically analyze, think logically, and apply analytical methods and skills for business problems
- -Explain the ethical implications and responsibilities of ensuring integrity of financial integrity
- -Demonstrate the value of personal and professional effective communication
- -Apply knowledge of GAAP, FASB, GASB, and managerial accounting theories to businesses, state and local governments, and nonprofit organizations
- Apply knowledge and understanding of federal tax laws and procedures on businesses and individuals

| 5 Key Course Outcomes                                                                                | Learning Activities/<br>Assignments | Benchmarks/<br>Performance Indicator | Results  |

### Data:

For this course, there were no additional rubrics on blackboard. I assessed the course based on overall students' performance and SLO.

# Data Analysis—Strengths of this course:

Experienced professor.

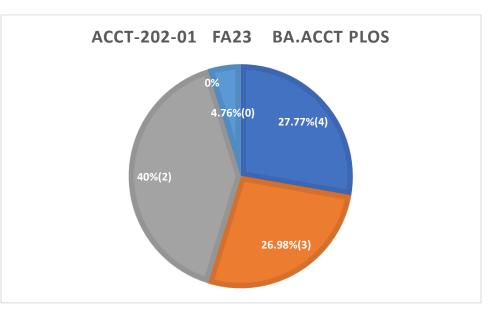

Students earn the basic knowledge of financial accounting standards.

**Data Analysis—Improvements, such as changes in pedagogy, curriculum revision etc.:** Nothing.

| Learning<br>Activity                 | Course                                                      | Instructors            | Enrollment | Evaluations | % Met the<br>Benchmark                           |

# Comments on Grades:

As expected.

#### **Course name: Principles of Marketing**

#### **Course Number: BUSN-212-01**

Term: Fall

#### Year: 2023

Instructor: Lori Parry

#### **Instructional Student Learning Outcomes:**

1. Explain what marketing is and how it's used

2. Identify the primary marketing activities of an organization

- 3. Determine market segments and target customers
- 4. Determine market segments and target customers

5. Apply principles of ethics and social responsibility in marketing

#### **Program Student Learning Outcomes:**

1. Demonstrate working knowledge of the basic concepts and principles that apply to the functional and operational areas of business

2. Demonstrate the value of personal and professional effective communication

3. Demonstrate an appreciation of ethical implications involved in performing managerial functions

4. Critically analyze, think logically, and apply analytical methods and skills for business problems

5. Develop the capacity to work harmoniously and effectively with others

#### Strengths of this course: Grade distribution:

| 10 | А  | 1  | C+ |
|----|----|----|----|
| 3  | A- | 1  | С  |
| 2  | B+ | 1  | F  |
| 2  | В  | 12 | Ι  |
| 0  | В- |    |    |

#### **Comments on grades:**

Several international students had outstanding assignements due beyond their control at the end of the semester, so they were given an incomplete.

#### Improvements for next year:

Students often stated that the PowerPoints provided did not present enough conceptual information. However, they were not required to purchase the textbook. It is recommended that a textbook be required to enhance student learning.

### **Course name: Professional Selling**

Term: Fall

Year: 2023

#### **Instructional Student Learning Outcomes:**

- 1. Display a broad understanding of the pivotal role that personal selling occupies in a competitive corporate landscape.
- 2. Demonstrate a fundamental understanding of why and how business organizations make buying decisions.
- 3. Exhibit the standard sales procedures aimed at generating value and attaining customer satisfaction.
- 4. Demonstrate a basic understanding of the importance of a mutually beneficial relationship with a customer.
- 5. Exhibit competence in spoken communication abilities vital for advancing one's professional success.
- 6. Show proficiency in verbal communication skills crucial for achieving success in one's career.
- 7. Express a basic understanding of the ethical, legal, and societal obligations that sales professionals must uphold.

#### **Program Student Learning Outcomes:**

1. Demonstrate working knowledge of the basic concepts and principles that apply to the functional and operational areas of business

2. Demonstrate the value of personal and professional effective communication

3. Demonstrate an appreciation of ethical implications involved in performing managerial functions

4. Critically analyze, think logically, and apply analytical methods and skills for business problems

5. Develop the capacity to work harmoniously and effectively with others.

### Strengths of this course:

#### **Course name: Organizational Leadership**

Term: Fall

#### Course Number: BUSN-325-01

Instructor: Matthew DeSantis

#### **Instructional Student Learning Outcomes:**

After examining the evolution of leadership theory, this course focuses on a contemporary leadership model. The student's leadership style will be determined, and personal development opportunities will be provided.

Year: 2023

#### **Program Student Learning Outcomes:**

The text presents the theory, concepts, and applications with emphasis on the impact individuals and groups can have on organizational performance and culture. An array of recurring features engages students in entrepreneurial thinking, managing change, using tools/technology, and responsible management.

## Course Name: Individual Tax Accounting

### **Course Number: ACCT-331-01**

Year: 2023

Instructor: Brendan Welsh

## Instructional Student and Program Learning Outcomes, including PEGs:

## Program Learning Outcomes (ACCT PLOs):

Explain, integrate, and perform basic fundamental concepts in accounting, finance, marketing, management, and economics

Critically analyze, think logically, and apply analytical methods and skills for business problems Explain the ethical implications and responsibilities of ensuring integrity of financial integrity Demonstrate the value of personal and professional effective communication

Apply knowledge of GAAP, FASB, GASB, and managerial accounting theories to businesses, state and local governments, and nonprofit organizations

Apply knowledge and understanding of federal tax laws and procedures on businesses and individuals

### **Student Learning Objectives**

Term: Fall

Upon completion of this course, students should:

- 1. Have an understanding of the United States tax system relating to individual taxation.
- 2. Be able to identify, apply and calculate certain concepts and provisions of the United State tax code.
- 3. Be able to prepare an individual tax return.

### **Course Name: Managerial Cost Accounting**

## Course Number: ACCT-341-01

Term: Fall

# Instructor: Dr. Ed Younkins

Instructional Student and Program Learning Outcomes, including PEGs: Instructional Student Learning Outcome:

Year: 2023

- 1. Explain the role of management accounting in business. (BT2)
- 2. Explain cost behaviors including variable, fixed, and mixed components. (BT2)
- 3. Contrast functional-based and activity-based cost systems. (BT2)
- 4. Complete income statements using both variable and absorption costing. (BT3)
- 5. Distinguish between relevant and non-relevant costs in various decision-making scenarios. (BT2)

## **Program Learning Outcomes**

- 7. Demonstrate working knowledge of the basic concepts and principles that apply to the functional and operational areas of business
- 8. Demonstrate the value of personal and professional effective communication
- 9. Demonstrate an appreciation of ethical implications involved in performing managerial functions
- 10. Critically analyze, think logically, and apply analytical methods and skills for business problems
- 11. Develop the capacity to work harmoniously and effectively with others

## **Course Name: Intermediate Accounting I**

## Course Number: ACCT-311-01

Year: 2023

# Instructor: Dr. Ed Younkins

## Instructional Student and Program Learning Outcomes, including PEGs: Instructional Student Learning Outcome:

Assess and understand the Accounting Conceptual Framework and underlying principles of accounting applications and procedures (BT 2,3, &4)

Analyze the effects of transactions and events on an entity's financial condition and demonstrate an understanding of Generally Accepted Accounting Principles (GAAP) (BT2,3,

&4)

Term: Fall

Employ professional judgment applying GAAP technical concepts to prepare and present financial statements and related disclosures. (BT 4,5)

Understand the environment and theoretical structure of financial accounting and will be able to apply those concepts to transactional analysis. (BT2,3)

Complete all the steps in the accounting processing cycle and apply GAAP as required. (BT3,4, &5)

## **Program Learning Outcomes**

Explain, integrate, and perform basic fundamental concepts in accounting, finance, marketing, management, and economics

Critically analyze, think logically, and apply analytical methods and skills for business problems Explain the ethical implications and responsibilities of ensuring integrity of financial integrity Demonstrate the value of personal and professional effective communication

Apply knowledge of GAAP, FASB, GASB, and managerial accounting theories to businesses, state and local governments, and nonprofit organizations

Apply knowledge and understanding of federal tax laws and procedures on businesses and individuals

# Data:

For this course, there were no additional rubrics on blackboard. I assessed the course based on overall students' performance and SLO.

### Data Analysis—Strengths of this course:

Experienced professor.

Students earn the basic knowledge of financial accounting standards.

**Data Analysis—Improvements, such as changes in pedagogy, curriculum revision etc.:** Nothing.

|                  | B-   |   |    |

## **Comments on grades:**

The grades were expected with the exception of the failing grade. That grade was due to the student not completing the assignments and failing to meet with the instructor for help. This was the second attempt at passing this course. The first failing attempt was also due to not completing the assignments.

#### Improvements for next year:

Continue to email students without stopping after 3 attempts, when they need assistance with completing assignments. Reaching out to Chair of the department earlier than what was done this semester when students fail to respond to instructor.

### Course Name: QBA

#### Course Number: BUSN-201-01

Instructor: Fred Rossell

Term: FA23

Year: 2023

#### Instructional Student Learning Outcomes:

Identify and explain the fundamental concepts and principles of statistics for business. Perform the analysis of business data.

Demonstrate the ability to analysis business data.

Demonstrate the ability to communicate statistics analysis in an ethical manner.

Identify and collect data.

#### **Program Student Learning Outcomes:**

- 1. Demonstrate working knowledge of the basic concepts and principles that apply to the functional and operational areas of business
- 2. Demonstrate the value of personal and professional effective communication
- **3.** Demonstrate an appreciation of ethical implications involved in performing managerial functions.
- **4.** Critically analyze, think logically, and apply analytical methods and skills for business problems
- 5. Develop the capacity to work harmoniously and effectively with others

### Strengths of this course:

An introduction to Quantitative Business Analysis topic: The course focuses on Why should I use statistics? How do I use statistics?

## Grade distribution:

| 11 | А  |   | C+ |

# **BUSN/ACCT Program Course Evaluation Spring 24**

## **Course name: Principles of Management**

Course Number: BUSN-211-01

Term: Spring

Year: 2024

Instructor: Lori Parry

## **Instructional Student Learning Outcomes:**

- 1. Describe the four major functions of management planning, organizing, leading, & controlling (BT2)
- 2. Demonstrate leadership, teamwork, engagement, and ethical understanding; successfully use project management competencies (BT2)
- 3. Develop communication competencies (BT6)
- 4. Examine how management impacts the business discipline and how the field of management impacts business and society domestically and globally (BT4)
- 5. Apply aspects of management to organizations and how to use management practices to make ethical decisions (BT3)
- 6. Investigate how they can make a difference in their communities as well as others' lives and how they can challenge members of their organization to do the same (BT6)

## **Program Student Learning Outcomes:**

1. Demonstrate working knowledge of the basic concepts and principles that apply to the functional and operational areas of business

2. Demonstrate the value of personal and professional effective communication

3. Demonstrate an appreciation of ethical implications involved in performing managerial functions

4. Critically analyze, think logically, and apply analytical methods and skills for business problems

5. Develop the capacity to work harmoniously and effectively with others

**Strengths of this course:** Consistent student interaction in various group settings to drive enhanced learning.

## Grade distribution:

| 4 | А  | 1 | C+ |
|---|----|---|----|
| 2 | A- | 6 | С  |
| 1 | B+ | 2 | D+ |
| 2 | В  | 2 | D  |
| 0 | B- | 1 | F  |
|   |    | 1 | Ι  |

**Comments on grades:** Several students had attendance issues and did not consistently attend class.

# Improvements for next year:

Incorporate a more stringent attendance policy to improve overall attendance to enhance learning.

| Key 6 Course<br>Outcomes                                                                                                                                      | Assessment<br>Method                                                 | Criteria for Success                                                                                                                                                                                  | Summary<br>of Data | Use of<br>Data |

#### **Course name: Business Statistic**

#### Year: 2024

#### **Course Number: BUSN-115-01**

Term: Spring

Instructor: Dr. Colin Steitz

#### **Instructional Student Learning Outcomes:**

Organize and display data in a meaningful way and communicate its essential features using tables and charts

Compute and interpret summary measures of data, especially measures of central tendency and dispersion

Apply basic probability, probability distributions (especially the Standard Normal Distribution), and sampling distributions to problems and to real data

Conduct and interpret confidence interval estimation and hypothesis testing

Conduct and interpret correlation analysis and simple linear regression analysis

## **Program Student Learning Outcomes:**

Demonstrate working knowledge of the basic concepts and principles that apply to the functional and operational areas of business.

Demonstrate the value of personal and professional effective communication.

Demonstrate an appreciation of ethical implications involved in performing managerial functions.

Critically analyze, think logically, and apply analytical methods and skills for business problems.

Develop the capacity to work harmoniously and effectively with others.

## Strengths of this course:

Covers essential topics in applied statistics to Business concepts.

Provides an accessible text, with plenty of example problems.

## Grade distribution:

| 8 | А  | 1 | C+ |
|---|----|---|----|
| 6 | A- | 3 | С  |
| 8 | B+ | 0 | F  |
| 4 | В  | 0 | Ι  |
| 1 | B- |   |    |

#### **Comments on grades:**

The grades are in the solid A to B range with a few students poorly. Overall, the grade distribution of the class suggests that the teaching approach were effective.

## **Improvements for next year:**

Work on Class engagement. Provide engagement opportunities and get them to see the material in their own life. Move quicker through the first two chapters and work in more regression. Course Outcomes Assessed:

#### **Course name: Quantitative Business Analysis**

**Year:** 2024

#### Course Number: BUSN-201-01 Instructor: Dr. Colin Steitz

Term: Spring

## **Instructional Student Learning Outcomes:**

Ability to convert relevant information into various mathematical forms (e.g., equations, graphs, diagrams, tables, words)

Ability to explain information presented in mathematical forms (e.g., equations, graphs, diagrams, tables, words)

Explain information presented in mathematical forms (e.g., equations, graphs, diagrams, tables, words)

Ability to make and evaluate important assumptions in estimation, modeling, and data analysis Conduct and interpret correlation analysis and simple linear regression analysis

## **Program Student Learning Outcomes:**

Demonstrate working knowledge of the basic concepts and principles that apply to the functional and operational areas of business.

Demonstrate the value of personal and professional effective communication.

Demonstrate an appreciation of ethical implications involved in performing managerial functions.

Critically analyze, think logically, and apply analytical methods and skills for business problems.

Develop the capacity to work harmoniously and effectively with others.

## Strengths of this course:

Covers essential topics in applied statistics to Business concepts.

Provides an accessible text, with plenty of example problems.

## Grade distribution:

| 9 | А  | 1 | C+ |
|---|----|---|----|
| 7 | А- | 1 | С  |
| 4 | B+ | 0 | F  |
| 5 | В  | 0 | Ι  |
| 2 | В- |   |    |

## **Comments on grades:**

The grades are in the solid A to B range with a few students poorly. Overall, the grade distribution of the class suggests that the teaching approach were effective.

## Improvements for next year:

Work on course material that is textbook independent as not requiring the text made the course difficult for the students, and open course materials don't exist for the course.

## **Course Outcomes Assessed:**

| Key 5 Course Outcomes | Assessment<br>Method | Criteria for Success | Summary of Data |

## **Course name: Macroeconomics**

## **Course Number: ECON-211-01**

Term: Spring

Year: 2024

## **Instructional Student Learning Outcomes:**

Demonstrate knowledge of the core economic goals

and concepts.

Identify and discuss the key macroeconomics problems/current events.

Comment and discuss the potential solutions to macroeconomics problems

## **Program Student Learning Outcomes:**

Demonstrate working knowledge of the basic concepts and principles that apply to the functional and operational areas of business.

Demonstrate the value of personal and professional effective communication.

Demonstrate an appreciation of ethical implications involved in performing managerial functions.

Critically analyze, think logically, and apply analytical methods and skills for business problems.

Develop the capacity to work harmoniously and effectively with others.

## Strengths of this course:

The course was able to cover a wide breadth of material with easy to approach text.

Provides ample work for students to review.

Encourages application of course work via a group project.

## Grade distribution:

| 13 | А  | 1 | C+ |
|----|----|---|----|
| 11 | A- | 0 | С  |
| 4  | B+ | 1 | F  |
| 5  | В  | 0 | Ι  |
| 1  | B- |   |    |

## **Comments on grades:**

The grade distribution is in the solid B to B+ range. Overall while there were two students who failed to engage with the course, the rest did fairly well. Overall no major concerns over the grades.

## Improvements for next year:

Work on Class engagement. Find a better way to approach the introduction and use alternate material for the neoclassical and Keynesian discussions.

#### **Course Outcomes Assessed:**

## **Course name: Microeconomics**

## **Course Number: ECON-212-01**

Term: Spring

Year: 2024

Instructor: Dr. Colin Steitz

#### **Instructional Student Learning Outcomes:**

Explain the fundamentals of economic thinking the

use of economic resources.

Use a production possibilities curve to explain opportunity costs and efficient use of economic resources.

Predict the effects of changes in demand and supply on equilibrium

price and quantity.

Calculate and assess elasticity coefficients and apply the total revenue test to price elasticity of demand.

Assess market failures and recommend policies to correct market failures.

Investigate how firms determine price and quantity based on the four different market structures (pure competition, pure monopoly, monopolistic competition, and oligopoly), comparing outcomes and efficiency of the industries.

## **Program Student Learning Outcomes:**

Demonstrate working knowledge of the basic concepts and principles that apply to the functional and operational areas of business.

Demonstrate the value of personal and professional effective communication.

Demonstrate an appreciation of ethical implications involved in performing managerial functions.

Critically analyze, think logically, and apply analytical methods and skills for business problems.

Develop the capacity to work harmoniously and effectively with others.

## Strengths of this course:

Covers a wide range of Microeconomic topics, with a relatively easy to approach style. Provides ample work for students to review.

Encourages application of course work via a group project.

## Grade distribution:

| 9 | А  | 1 | C+ |
|---|----|---|----|
| 7 | A- | 1 | С  |
| 4 | B+ | 1 | D  |
| 6 | В  | 0 | F  |
| 1 | B- |   |    |

## **Comments on grades:**

The grades are in the solid B range with a few students doing well and a few doing poorly. I wonder if they became less engaged or the micro-topics are more difficult than how the book

series presents macro topics. Overall, the grade distribution of the class suggests that the teaching approach were effective.

## Improvements for next year:

Work on Class engagement. Go slower through the material and try to work on engaging with the students to get them to try and apply the material to examples. Provide engagement opportunities and get them to see the material in their own life.

#### **Course Outcomes Assessed:**

**Comments on Grades:** 

## **Course name: Principles of Accounting I**

# Course Number: ACCT-201-02

Term: Spring

Year: 2024

# Instructor: Lori Parry

## **Instructional Student Learning Outcomes:**

1. Define management accounting; 1

2. Have an understanding of business ethics, especially ethics related to accounting; 2

3. Define cost drivers and calculate cost costs using a variety of cost drivers; 1,2,3

4. Use cost-volume-profit analysis in decision taking; 3,4,5

5. Establish and use Activity-Based Costing; 3,4,5

6. Decide when information is relevant; 3,4,5

7. Use relevant information for decision making, both for pricing and operational decisions; 3,4,5

8. Describe the benefits of budgets; 1,2

9. Establish and use a master budget; 3,4,5

10. Establish and use flexible budgets; 3,4,5

11. Execute variance analysis; 3,4,5

12. Understand, define, and implement management control systems and responsibility accounting systems. 2,3,4,5

13. Discuss and implement management control systems in a decentralized organization; 2,3,4,5

14. Establish and implement various systems of cost allocation; 3,4,5

15. Establish and implement systems for accounting for overhead costs; 3,4,5

16. Compare and contrast job-costing and process-costing systems. 2,3,4,5

## **Program Student Learning Outcomes:**

Explain, integrate, and perform basic fundamental concepts in accounting, finance, marketing, management, and economics

Critically analyze, think logically, and apply analytical methods and skills for business problems Explain the ethical implications and responsibilities of ensuring integrity of financial integrity Demonstrate the value of personal and professional effective communication

Apply knowledge of GAAP, FASB, GASB, and managerial accounting theories to businesses, state and local governments, and nonprofit organizations

Apply knowledge and understanding of federal tax laws and procedures on businesses and individuals

**Strengths of this course:** Consistent student interaction in various group settings. **Grade distribution:** 

| 6 | А  | 2 | C+ |
|---|----|---|----|
| 3 | A- | 4 | С  |
| 0 | B+ | 1 | C- |
| 0 | В  | 2 | D+ |
| 2 | В- | 0 | F  |
|   |    | 0 | Ι  |

**Comments on grades:** Attendance was a consistent issue and the majority of the students did not obtain a textbook. These two issues caused learning inconsistencies and the need to spend additional time on topics.

## Improvements for next year:

Suggest that a virtual learning platform be implemented to enhance student learning. require students to obtain the course textbook, and implement a more stringent and comprehensive attendance policy.

## **Course name: Principles of Accounting II**

## Course Number: ACCT-202-01

Term: Spring

Year: 2024

## Instructor: Lori Parry

#### **Instructional Student Learning Outcomes:**

- 1. Define management accounting; 1
- 2. Have an understanding of business ethics, especially ethics related to accounting; 2
- 3. Define cost drivers and calculate cost costs using a variety of cost drivers; 1,2,3
- 4. Use cost-volume-profit analysis in decision taking; 3,4,5
- 5. Establish and use Activity-Based Costing; 3,4,5
- 6. Decide when information is relevant; 3,4,5
- 7. Use relevant information for decision making, both for pricing and operational decisions; 3,4,5
- 8. Describe the benefits of budgets; 1,2
- 9. Establish and use a master budget; 3,4,5
- 10. Establish and use flexible budgets; 3,4,5
- 11. Execute variance analysis; 3,4,5

12. Understand, define, and implement management control systems and responsibility accounting systems. 2,3,4,5

- 13. Discuss and implement management control systems in a decentralized organization; 2,3,4,5
- 14. Establish and implement various systems of cost allocation; 3,4,5
- 15. Establish and implement systems for accounting for overhead costs; 3,4,5
- 16. Compare and contrast job-costing and process-costing systems. 2,3,4,5

## **Program Student Learning Outcomes:**

Explain, integrate, and perform basic fundamental concepts in accounting, finance, marketing, management, and economics

Critically analyze, think logically, and apply analytical methods and skills for business problems Explain the ethical implications and responsibilities of ensuring integrity of financial integrity Demonstrate the value of personal and professional effective communication

Apply knowledge of GAAP, FASB, GASB, and managerial accounting theories to businesses, state and local governments, and nonprofit organizations

Apply knowledge and understanding of federal tax laws and procedures on businesses and individuals

#### Strengths of this course:

Consistent student interaction in various group settings to drive enhanced learning.

#### Grade distribution:

| 1 | А  | 2 | C+ |
|---|----|---|----|
| 1 | А- | 1 | С  |
| 3 | B+ | 1 | C- |
| 3 | В  | 1 | D+ |
| 1 | В- | 0 | F  |
|   |    | 1 | Ι  |

# **Comments on grades:** No Comment **Improvements for next year:**

Students enjoyed McGraw Hill Connect and stated that this method forced them to study and learn the material. Suggestion is to keep this method of virtual platform to continue student success.

# **Comments on Grades:**

Students who failed did not complete their assignments.

#### **Course Name: Strategic Business Planning**

Course Number: BUSN-410-01

Term: Spring

# Instructor: Dr. Alberto M. Poxes, Jr.

# Instructional Student and Program Learning Outcomes, including PEGs:

1. Demonstrated an understanding of the strategic management process.

Year: 2024

- 2. Identify the strategic problem of a company.
- 3. Formulate strategic plans to improve an organization.
- 4. Develop solutions to a firm's strategic issues.
- 5. Demonstrate effective research, quantitative, communication, and human relations skills.
- 6. Understand and discuss the critical importance and relevance of ethical conduct and social responsibility properly understand in the lives of internal and external stakeholders.

# **Program Learning Outcomes:**

- 1. To help each student develop an administrative philosophy that will be modeled in the development of all administrative procedures and practice by describing the traditional types of administrative styles; identifying the administrative behaviors that are necessary for success; and through identifying the duties and roles of business organizations.
- 2. To have the students understanding workable knowledge of administrative components related to business management, by identifying traditional and innovative organizational structures, and describe the various methods of personnel organization, then compare and contrast the management theories, and identifying types of power, describe problem solving models, principles of delegation and dynamics of supervision.
- 3. To enhance students understanding of the application of concepts in examining equal opportunity and affirmative action, demonstrate effective interviewing skills, relate principles of personnel relations to organizations and businesses, outline applications of staff development and time management and the dynamics of stress management.
- 4. Integrate knowledge and skills acquired from previous coursework in business classes to create successful firms' strategies. Perform and complete external and internal analysis of companies. Analyze and evaluate a firm's resources and competitive position.
- 5. Identify the role of leaders in a given firm and how that role relates to the company's strategic efforts. Evaluate potential management problems, opportunities, strengths, and weaknesses and possible strategies to address these. Identify and analyze te external and internal environmental forces and the economic, social, political, legal, and strategic issues associated with these forces.

#### Data:

The 3 exams administered were used to assess the student's problem-solving and critical thinking skills in understanding of strategic management concepts such as organizational theories, organizational behavior, business ethics, strategic decision-making, and human resources. Assessment was also based on group project which sought expose students how to obtain historic management theories of any country of their choice and analyze the patterns and trends in the United States.

#### Data Analysis—Strengths of this course:

Most of the lectures were practical discussions of issues related to decision-making, and the students were able to relate what they were being taught to the real-world problems confronting the US and the global economy at large. For example, students can now suggest which policy response (i.e., regulation and/or deregulation of businesses).

## Data Analysis—Improvements, such as changes in pedagogy, curriculum revision etc.:

Nothing to change here. The process was very successful and enabled the students to learn.# of studentsGrade Distribution:# of students

| Demonstrate working knowledge of<br>the basic concepts and principles that<br>apply to the functional and operational<br>areas of business | SmartBook assignments, exercises, and problems | Exams                                      |
| Demonstrate the value of personal and professional effective communication                                                                 | SmartBook assignments, exercises, and problems | Exams                                      |
| Demonstrate an appreciation of ethical<br>implications involved in performing<br>managerial functions                                      | SmartBook assignments, exercises, and problems | Exams                                      |
| Critically analyze, think logically, and<br>apply analytical methods and skill for<br>business problems                                    | SmartBook assignments, exercises, and problems | Exams                                      |
| Develop the capacity to work<br>harmoniously and effectively with<br>others                                                                | SmartBook assignments, exercises, and problems | Exams                                      |

#### Strengths of this course:

Having the course in a hybrid format allowed more flexibility for attendance. Students who could not attend in person due to athletic events or class time conflict could listen to the recorded lecture online.

#### Grade distribution:

| 1 | А  |   | C+ |
|---|----|---|----|
|   | A- | 1 | С  |
|   | B+ |   | F  |
|   | В  |   | Ι  |
|   | B- | 1 | C- |

#### **Comments on grades:**

Grades were as expected.

## Improvements for next year:

None for course content. Assignments covered the major topics. However, two needed courses were scheduled at the same time for one student. Attendance was low in this course for that student.

#### **Course Outcomes Assessed:**

| Key 5 Course<br>Outcomes                                                                                                                                      | Assessment<br>Method                                          | Criteria for<br>Success          | Summary of<br>Data                       | Use of Data                                                                        |

#### **Course name: Employment Law**

#### **Course Number: BUSN-415-01**

Term: Spring

#### Year:2024

Instructor: Amy Smith

#### **Instructional Student Learning Outcomes:**

This course deals with the concepts, applications, and skill-building material required to have an understanding of the evolution of labor law and how it has changed employment. This approach covers the following: 1.) Labor Law before the Employment Act 2) Modern Labor Law 3) Employment Discrimination Law, 4) Agencies, Unions and Fair Labor Standards Act, 5) Other Employment Laws. Case studies, articles and discussions will be reviewed on topics that coincide with each part. This course will develop student's critical thinking skills, applications of remembering, understanding, applying, analyzing, evaluating, and creating.

#### **Program Student Learning Outcomes:**

This course will examine the evolution of employment law. This course focuses on both previous standards prior to the laws and how the additions of laws changed the course of employment and employee rights. The students will review various legal cases, case studies and examples of why these employment laws were enacted.

#### Strengths of this course:

This course offers the student the opportunity to become more aware of the laws that govern companies in any industry and will help prepare them if their career interest is in the field of human resources or any supervisory position. It also allows them a personal knowledge of employment law as it applies to themselves as individuals and helps them know their rights as an employee. The professor has 30 years of experience in the field and can provide added examples of real life situations.

#### Grade distribution:

| 4 | A  | 1 | C+ |
|---|----|---|----|
| 1 | A- |   | С  |
|   | B+ |   | F  |
|   | В  |   | Ι  |
|   | B- |   |    |

Comments on grades: Overall, students were very conscientious after completing assignments. Since this was a hybrid class, we communicated well in a variety of ways. This was an upper level class and students were able to respond well to the workload. The one student who recieved a lower grade did not meet the deadline of a project and was given an extension but failed to turn in any product by the end of the semester. He probably would have been closer to a B with that project.

**Improvements for next year:** This was my first year developing this class. The initial work was very historical to help students learn why laws were developed. I would like to add more

examples and case studies into the first part of the semester. I would also shift some of the more pertinent laws and information to our in-person sessions. **Course Outcomes Assessed:** 

| Program Learning Outcome                                                                                                                             | LEARNING<br>ACTIVITIES/ASSIGNMENT                                                                | ASSESSMENTS FOR THE<br>LEARNING ACTIVITIES                                                   |

#### **Course name: Organizational Behavior and Diversity Management Course Number: BUSN 251-01**

Term: Spring

Year: 2024

Instructor: Amy Smith

#### **Instructional Student Learning Outcomes:**

This course deals with the concepts, applications, and skill-building material required to provide organizational leadership and diversity management. This approach covers the following: 1) Selection (Intelligence, Conscientiousness, Emotional Stability, Recruiting and Hiring. 2) Training and Performance Appraisal 3) Turnover and Satisfaction, 4) Motivation, 5) Team Dynamics, 6) Leadership

Each part of the above 6 areas will also address DEI (Diversity, Equity, and Inclusion) in the workplace. Case studies, articles and discussions will be reviewed on topics that coincide with each part. This course will develop student's critical thinking skills, applications of remembering, understanding, applying, analyzing, evaluating, and creating.

## **Program Student Learning Outcomes:**

After examining the evolution of leadership theory, this course focuses on a contemporary leadership model. The student's leadership style will be determined, and personal development opportunities will be provided. Discussion will also include diversity, equity and inclusion on all levels of work.

#### Strengths of this course:

Helping students analyze their own personality traits and their potential interest in the leadership in the workplace as well as the importance of teams, satisfaction in their careers, and recognizing how treating employees as individuals and inclusion play a significant part in the success of a organization. Helping student evaluate their own leadership style and recognize how the styles of previous supervisors impacted their employment. Professor uses real life experiences and examples of employee interactions, problems and solutions.

#### Grade distribution:

| 5 | А  |  | C+ |
|---|----|--|----|
| 3 | A- |  | С  |
|   | B+ |  | F  |
|   | В  |  | Ι  |
|   | B- |  |    |

**Comments on grades:** This was a smaller group then when this class had been taught last year. They were very engaged and supportive of each other and their responses. They shared quite a bit and were very open to participation. I did stress the importance of turning in all work and they were very good about meeting all deadlines and discussion requirements.

## Improvements for next year:

Continue to stress deadlines and completing all work timely. Depending on the class size, allowing them more time at the end of class to share situations or past employment experiences. Since most students participate in sports at the university, using the coaching model in sports to discuss those techniques in the terms of supervisors in the workplace.

#### Course Outcomes Assessed:

| Program Learning<br>Outcome                                                                                     | LEARNING<br>ACTIVITIES/ASSIGNMENT                                                 | ASSESSMENTS FOR THE LEARNING<br>ACTIVITIES                                                |

#### Data:

#### Data Analysis—Strengths of this course:

9 enrolled in the course and 8 passed with a B- or higher the BSBA grading with 100%. Only 1 failed.

**Data Analysis—Improvements, such as changes in pedagogy, curriculum revision etc.:** Results show that the course design/content of the course aligns with course objectives. No changes are needed. A final project could be added.

Comments on Grades:

#### **Course name: Salesforce Training & Cert**

Term: Spring Year: 2024

## Course Number: BUSN-430-01

Instructor: Matthew DeSantis

### **Instructional Student Learning Outcomes:**

The Salesforce certification training course is designed to ensure that students learn and master the concepts of being a Salesforce Administrator and App Builder. This course provides training in Salesforce configuration to collect, analyze, and retrieve vital customer information and create applications using Salesforce Lightning.

## **Program Student Learning Outcomes:**

Each week you will be required to complete the required training Modules and complete the assigned Quiz in Canvas.

You will create a Trailhead account and choose the role Salesforce Administrator. Once you have selected this role you will begin to complete modules and Trailmixes assigned to the role.

The Trailmix you should be on is: Prepare for your Salesforce Administrator Credential.

## Strengths of this course:

Salesforce is designed to educate participants about the salesforce software platform. This course focuses on the administrative role within Saleforces' design and implication of software solutions. Upon completion of this course students should have a foundational knowledge of Salesforces' capabilities.

#### Grade distribution:

| 7 | А  |   | C+ |
|---|----|---|----|
|   | A- | 1 | С  |
|   | B+ | 1 | F  |
| 1 | В  |   | Ι  |
|   | B- |   |    |

#### **Comments on grades:**

#### Improvements for next year:

Adjust Canvas so students can work at their own pace and submit modules when completed.

#### **Course Outcomes Assessed:**

### **Course name: Financial Analysis I**

## Year: 2024

#### Course Number: BUSN-312-01

Term: Spring

Instructor: Lori Parry

Instructional Student Learning Outcomes:

- 1. Identify the concepts and techniques used in financial analysis.
- 2. Present an overview of financial statement analysis, including income statements, balance sheets, and cash flow statements.
- 3. Interpret and evaluate financial ratios to assess a company's profitability, liquidity, solvency, and efficiency.
- 4. Use the time value of money and its application in financial analysis.
- 5. Evaluate historical financial data through forecasting and budgeting.
- 6. Illustrate the significance of industry and economic analysis in financial decision-making.

## **Program Student Learning Outcomes:**

1. Demonstrate working knowledge of the basic concepts and principles that apply to the functional and operational areas of business

2. Demonstrate the value of personal and professional effective communication

3. Demonstrate an appreciation of ethical implications involved in performing managerial functions

4. Critically analyze, think logically, and apply analytical methods and skills for business problems

5. Develop the capacity to work harmoniously and effectively with others

**Strengths of this course:** Consistent student interaction in various group settings to drive enhanced learning.

## **Course name: Collect Bargain and Labor Rel**

## Course Number: BUSN-321-01

Term: Spring

## Instructor: Lori Parry

## **Instructional Student Learning Outcomes:**

1. Explain why employees, employers, and society may or may not desire unions (past, present, and future), and justify the underlying importance of fundamental assumptions about markets and employment relationship conflict.

Year: 2024

- 2. Manage the major relations processes (union organizing, bargaining, and dispute resolution) by being able to understand their features, interpret legal standards and rulings, evaluate key influences, and support specific strategies.
- **3.** Assess the effect of worker representation on the operation of the workplace, firm, economy, and society.
- **4.** Identify current challenges in labor relations, debate the central controversies, and recommend new directions.

## **Program Student Learning Outcomes:**

1. Demonstrate working knowledge of the basic concepts and principles that apply to the functional and operational areas of business

2. Demonstrate the value of personal and professional effective communication

3. Demonstrate an appreciation of ethical implications involved in performing managerial functions

4. Critically analyze, think logically, and apply analytical methods and skills for business problems

5. Develop the capacity to work harmoniously and effectively with others

Strengths of this course: Consistent student interaction in various group settings to drive enhanced learning.

## Grade distribution:

| 1 | А  | 0 | C+ |
|---|----|---|----|
| 1 | A- | 0 | С  |
| 3 | B+ | 1 | C- |
| 1 | В  | 0 | F  |
| 1 | В- | 0 | Ι  |

## **Comments on grades:**

Students enjoyed the interactive Learning environmement group work and self-led discussion and excelled in this atmosphère. The lowest grade in the course was because the student did not complete work on a consistent manner.

## Improvements for next year:

Adding a course project that reflect a union negotiating context would be beneficial to student learning. Also, including labor union and human resource professionals as guest speakers would provide invaluable insights and guidance for handling labor relations challenges.

**Course Outcomes Assessed:**

| Student Learning Objectives                                                                                                                                                              | Learning Activities/Assignment                             | Assessments for the Learning Activities |  |  |
| • Have a general understanding of a computerized accounting information system                                                                                                           | SmartBook assignments, discussion questions, and exercises | Projects, practice quizzes, and exams.  |  |  |
| Have an understanding of<br>QuickBooks Online accounting<br>information system                                                                                                           | SmartBook assignments, discussion questions, and exercises | Projects, practice quizzes, and exams.  |  |  |
| • The ability to evaluate transactions<br>and post to the appropriate general<br>ledger accounts                                                                                         | SmartBook assignments, discussion questions, and exercises | Projects, practice quizzes, and exams.  |  |  |
| • The understanding of financial information to run various financial reports                                                                                                            | SmartBook assignments, discussion questions, and exercises | Projects, practice quizzes, and exams.  |  |  |
| • The ability to evaluate the financial information given in order to complete the assignments                                                                                           | SmartBook assignments, discussion questions, and exercises | Projects, practice quizzes, and exams.  |  |  |
| • The application of generally<br>accepted accounting principles, as<br>they pertain to these areas, in<br>order to demonstrate knowledge of<br>the topics covered during this<br>course |                                                            | Projects, practice quizzes, and exams.  |  |  |
| Program Student Learning Outcomes:                                                                                                                                                       |                                                            |                                         |  |  |

**Program Student Learning Outcomes:** 

| Program Learning Outcomes                                                                                                                  | Learning Activities/Assignment                             | Assessments for the Learning<br>Activities |
|--------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------|--------------------------------------------|
| Demonstrate working knowledge of<br>the basic concepts and principles that<br>apply to the functional and operational<br>areas of business | SmartBook assignments, discussion questions, and exercises | Projects, practice quizzes, and exams.     |
| Demonstrate the value of personal and professional effective communication                                                                 | SmartBook assignments, discussion questions, and exercises | Projects, practice quizzes, and exams.     |
| Demonstrate an appreciation of ethical<br>implications involved in performing<br>managerial functions                                      | SmartBook assignments, discussion questions, and exercises | Projects, practice quizzes, and exams.     |

| Critically analyze, think logically, and<br>apply analytical methods and skill for<br>business problems | SmartBook assignments, discussion questions, and exercises | Projects, practice quizzes, and exams. |
|---------------------------------------------------------------------------------------------------------|------------------------------------------------------------|----------------------------------------|
| Develop the capacity to work<br>harmoniously and effectively with<br>others                             | SmartBook assignments, discussion questions, and exercises | Projects, practice quizzes, and exams. |

#### Strengths of this course: Grade distribution:

| Grade distribution | <b>, , , , , , , , , , , , , , , , , , , </b> |   |    |
|--------------------|-----------------------------------------------|---|----|
| 1                  | A                                             |   | C+ |
|                    | A-                                            |   | С  |
|                    | B+                                            |   | F  |
|                    | В                                             |   | Ι  |
|                    | B-                                            | 1 | C- |

#### **Comments on grades:**

The grades were as expected. The C- grade was due to the student not completing the some of the assignments and failing to meet with the instructor for help in a timely manner. Student would wait until the last minute for help and our schedules would not align for the one or two days available.

### Improvements for next year:

Continue to email students without stopping after 3 attempts, when they need assistance with completing assignments. Inputting a score of "0" once the due date has passed instead of waiting for the late submission deadline to pass. Students seem to respond more quickly after seeing the "0" score than an email about the missed assignment.

| Key 5 Course<br>Outcomes                                                                     | Assessment<br>Method        | Criteria for<br>Success         | Summary of<br>Data                                                                        | Use of Data                                                          |

### **Course name: Corporate Tax**

#### **Course Number: ACCT-332-01**

Term: Spring 2024

Year: 2024

Instructor: Fred Rossell

#### **Instructional Student Learning Outcomes:**

Identify and explain the environment and theoretical structure of tax accounting, and the tax accounting process.

Describe the concept of income tax measurement have a working knowledge of the federal tax code.

Demonstrate the ability to prepare all federal tax forms and schedules.

Identify and access general research materials.

## **Program Student Learning Outcomes:**

Explain, integrate, and perform basic fundamental concepts in accounting, finance, marketing, management, and economics.

Critically analyze, think logically, and apply analytical methods and skills for business problems. Explain the ethical implications and responsibilities of ensuring integrity of financial integrity. Demonstrate the value of personal and professional effective communication.

Apply knowledge of GAAP, FASB, GASB, and managerial accounting theories to businesses, state and local governments, and nonprofit organizations.

Apply knowledge and understanding of federal tax laws and procedures on businesses and individuals.

## Course Name: Auditing Theory & Practice

## **Course Number: ACCT-406-30**

Term: Spring

Instructor: Brendan Welsh

Instructional Student and Program Learning Outcomes, including PEGs: Program Learning Outcomes (ACCT PLOs):

Year: 2024

Explain, integrate, and perform basic fundamental concepts in accounting, finance, marketing, management, and economics

Critically analyze, think logically, and apply analytical methods and skills for business problems Explain the ethical implications and responsibilities of ensuring integrity of financial integrity Demonstrate the value of personal and professional effective communication

Apply knowledge of GAAP, FASB, GASB, and managerial accounting theories to businesses, state and local governments, and nonprofit organizations

Apply knowledge and understanding of federal tax laws and procedures on businesses and individuals

## **Student Learning Objectives/Program Learning Outcomes**

Upon completion of this course, students should be able to:

Demonstrate an understanding of the nature and scope of auditing.

Discuss the regulatory framework of auditing and related services.

Understand the ethical standards of an auditor.

Explain the stages of an audit and methods of gathering audit evidence.

Show an understanding and be able to interpret different types of audit reports.

#### Course Outcomes Assessed:

Data: Auditing & Assurance Services, 8th Edition (textbook)

**Data Analysis—Strengths of this course:** The course textbook provided up-to-date information on the latest auditing standards. The goal of the course was provide a basic overview of the auditing profession. This would include understanding Generally Accepted Auditing Standards, professional requirements, audit planning, risk assessment and the different types of audit opinions that could be issued. Problems, at times, required critical thinking based on information covered.

**Data Analysis—Improvements, such as changes in pedagogy, curriculum revision etc.:** None noted

| # of students | Grade Distribution | : # of students |    |

## Course Name: Estate Tax, Trust & Retirement Planning Course Number: BUSN-411-30

Term: Spring 2024

Year: 2023-2024

Instructor: Brendan Welsh

Instructional Student and Program Learning Outcomes, including PEGs: Program Learning Outcomes (MBA PLOs):

- Integrate concepts within and across business disciplines to promote strategic goals and solve complex problems by applying theoretical and practical models.
- Manage projects and teams using innovative leadership and communications skills through negotiating conflict and by using effective leadership skills
- Integrate ethical, evidence-based decisions to solve complex business problems leveraging a variety of quantitative, qualitative, and information technology tools.
- Demonstrate written and oral forms of effective business communication

# **Student Learning Objectives:**

Upon the successful completion of this course, the student will be able to:

- A. Identify and explain the environment and theoretical structure of tax planning.
- B. Describe the role of estate, trust, & retirement tax planning.
- C. Demonstrate the ability to plan for retirement.

## **Course Outcomes Assessed:**

| 5 Key Course Outcomes | Learning Activities/ | Benchmarks/           | Results      |
|-----------------------|----------------------|-----------------------|--------------|
|                       | Assignments          | Performance Indicator |              |
| А                     | Lecture, Readings    | Homework Problems,    | Satisfactory |
|                       |                      | Tests                 |              |
| В                     | Lecture, Readings    | Homework Problems,    | Satisfactory |
|                       |                      | Tests                 |              |
| С                     | Lecture, Readings    | Homework Problems,    | Satisfactory |
|                       |                      | Tests                 |              |

**Data:** J.K. Lasser's New Rules for Estate, Retirement, & Tax Planning. 6<sup>th</sup> Edition (textbook) **Data Analysis—Strengths of this course:** The course textbook provided information and strategies on various estate, gift and retirement tax planning.

**Data Analysis—Improvements, such as changes in pedagogy, curriculum revision etc.:** It was really difficult to challenge the students in this course as there was no textbook available on the subject matter. The book that was used, which was the same textbook used in the prior year, was informational; however, it did not provide end-of-chapter problems that would require students to critically think.

## **SPMT Course Evaluation Fall 23**

#### **Course Name: Sociology of Sports**

Course Number: SOCI/BUSN 261-01

Term: Fall Year: 2023 Instructor: Dr. Alberto M. Poxes, Jr. Instructional Student and Program Learning Outcomes, including PEGs:

- 1. Understand the institution of sport in American society and its interrelationship with other social institutions (educational, political, economic, religious, media, etc.).
- 2. Identify and discuss the way social values are transmitted through sport and critically analyze these values and their influence on behavior.
- 3. Understand the social consequences—desirable and undesirable—of sports in society.
- 4. Understand social problems such as racism, sexism and violence as they are reflected in sport contexts.

## **Program Learning Outcomes:**

- 1. The purpose of this course is to provide the student with an understanding of how to effectively integrate social values through sports to influence human behavior in society.
- 2. To enhance students understanding of the history and philosophy of sport and other issues related to desirable and undesirable social consequences transmitted through sports.
- 3. To bring awareness to the students of the major strides made in the development of sociology of sport in dealing with social problems such as racism, sexism, and violence to help society address the issues fairly.

#### **Course Outcomes Assessed:**

| Key Course Outcomes                                                                                                                                                                             | Learning Activities/<br>Assignments                  | Benchmarks/<br>Performance Indicator                                                                                                                                                                                         | Results                                                                                                                                                               |

#### Data:

The 3 exams administered were used to assess the student's problem-solving and critical thinking skills in understanding of sociology of sports and its implications of social values transmitted through sports in society. Assessment was also based on group project which sought to expose students how to understand social problems of racism, sexism, violence reflected in the sport context in the United States.

## Data Analysis—Strengths of this course:

Most of the lectures were practical discussions of issues related to the basic concept of sociology of sports issues that addressed the benefits of integration of social values through sports to the sports manager. The students were able to relate what they were being taught to the real-world problems confronting the sports franchises in the US.

**Data Analysis—Improvements, such as changes in pedagogy, curriculum revision etc.:** Nothing to change here. The process was very successful and enabled the students to learn *#* of students Grade Distribution:

### **Course Name: Sport Management**

Term: Fall

Year: 2023

## Course Number: MGMT 220-01

Instructor: Dr. Alberto M. Poxes, Jr.

## Instructional Student and Program Learning Outcomes, including PEGs:

- 1. Demonstrate knowledge of the core sport management goals and concepts.
- 2. Identify and discuss the key sport management problems/current events.

3. Comment and discuss the potential solutions to sport management problems.

### **Program Learning Outcomes:**

- 1. Understand the components of sports administration/management, recreation and physical health.
- 2. Administer basic athletic evaluations.
- 3. Design and teach group activity classes for all types of sport participants.
- 4. Design fitness programs based on specific needs and health evaluation results.

5. Develop leadership and communication skills related to recreation and health promotion.

#### **Course Outcomes Assessed:**

| 5 Key Course Outcomes                                                              | Learning Activities/<br>Assignments                                            | Benchmarks/<br>Performance Indicator                                                                                                                                                                                                                                                    | Results                                                                                                                                                            |

|                            |

#### Data:

The 3 exams administered were used to assess the student's problem-solving and critical thinking skills in understanding of sport management concepts such as organizational theories,

organizational behavior, business ethics, strategic decision-making, and human resources. Assessment was also based on group project which sought expose students how to obtain historic management theories applicable to sport of any country of their choice and analyze the patterns and trends in the United States.

## Data Analysis—Strengths of this course:

Most of the lectures were practical discussions of issues related to decision-making, and the students were able to relate what they were being taught to the real-world problems confronting the US and the global economy at large. For example, students can now suggest which policy response (i.e., equal pay, Title IX, Disabilities accommodations for athletes and regulation and/or deregulation of sport businesses).

Data Analysis—Improvements, such as changes in pedagogy, curriculum revision etc.:Nothing to change here. The process was very successful and enabled the students to learn.# of studentsGrade Distribution:# of students

#### Course Name: Sports Facility and Event Management Course Number: MGMT-401-01

Term: Fall Year: 2023

## Instructor: Dr. Alberto M. Poxes, Jr.

## Instructional Student and Program Learning Outcomes, including PEGs:

Demonstrate knowledge of preventive maintenance, facility planning and event management. Identify and discuss the key problems/current events with box office administration, house and grounds management, and systems management.

Comment and discuss the potential solutions to marketing, financing, and personnel administration of facilities and events management problems.

#### **Program Learning Outcomes:**

The purpose of this course is to provide the student with an understanding of how to effectively manage a sport facility

To enhance students understanding of the history and philosophy of sport facilities and other public assembly facilities.

To bring awareness to the students of the major strides made in the development of sport facilities since its foundation

To increase students understanding of the role of the facility manager and the various concerns faced by facility managers

To help students understanding the broad array of responsibilities faced by facility managers **Course Outcomes Assessed:** 

| 5 Key Course Outcomes                                                                                                                                                                                                                                                                 | Learning Activities/<br>Assignments                  | Benchmarks/<br>Performance Indicator                                                                                                                                                                                                                | Results                                                                                                                                                                      |

|                           |                      | objective is successfully                                              |  |
|                           |                      | achieved.                                                              |  |

The 3 exams administered were used to assess the student's problem-solving and critical thinking skills in understanding of management concepts such as organizational theories, organizational behavior, business ethics, strategic decision-making, and human resources applicable to sports facility and event management. Assessment was also based on group project which sought expose students how to obtain historic management theories of any country of their choice and analyze the patterns and trends in the United States.

#### Data Analysis—Strengths of this course:

Most of the lectures were practical discussions of issues related to decision-making in the management of sports facility, and the students were able to relate what they were being taught to the real-world problems confronting the sports franchises in the US and the global implications of the economy of sports at large. For example, students can now suggest which policy response (i.e., federal legislations related to Title IX and American with Disabilities Act (ADA).

Data Analysis—Improvements, such as changes in pedagogy, curriculum revision etc.:Nothing to change here. The process was very successful and enabled the students to learn.# of studentsGrade Distribution:# of students

## **Comment on Grades:**

#### **Course Name: Sports Law**

Term: Fall

Year: 2023

## Course Number: MGMT-402-01

Instructor: Dr. Alberto M. Poxes, Jr.

## Instructional Student and Program Learning Outcomes, including PEGs:

Demonstrate knowledge of the core concepts of sports as they relate to various categories of law, as well as study of ethics, legal liabilities of coaches, administrators, managers, and institutions related to the sport field.

Identify and discuss the key relationship of sports to various categories of the law, including torts, crimes and discrimination problems/current events.

Comment and discuss the potential solutions to the application of constitutional framework applicable to sports problems.

## **Program Learning Outcomes:**

Identify and discuss the relations of sports to various categories of the law, including torts, crimes, and discrimination.

Explain the role of the attorney and agent when representing athletes.

Relate principles of agency law in the sports context.

Understand the constitutional framework that surrounds sports.

Discuss contracts and terms, including important clauses relating to an endorsement agreement.

Differentiate between the legal issues unique to professional amateur sports.

Observe how criminal law differs from civil law in the context of sports.

#### **Course Outcomes Assessed:**

|                            |                      | States. Thus, course                 |  |
|                            |                      | objective is successfully            |  |
|                            |                      | achieved.                            |  |
|                            |                      |                                      |  |

The 3 exams administered were used to assess the student's problem-solving and critical thinking skills in understanding of sports law concepts such as case laws related to various aspects of sports, contract law, tort law, constitutional law, and product liability. Assessment was also based on group project which sought to expose students how to apply different laws in sport issues in the United States.

#### Data Analysis—Strengths of this course:

Most of the lectures were practical discussions of issues related to the basic concept of legal issues in sports in which tort law, contract law, constitutional law, product liability, and intellectual property were addressed to the benefit of the sports manager. The students were able to relate what they were being taught to the real-world problems confronting the sports franchises in the US and the larger implications of the constitutional law in sports. For example, students can now suggest which policy response (i.e., federal legislations related to Title IX and American with Disabilities Act (ADA).

**Data Analysis—Improvements, such as changes in pedagogy, curriculum revision etc.:** Nothing to change here. The process was very successful and enabled the students to learn. **Grade Distribution of students :**

## **Comment on Grades :**

## Course Name: Sports Facility and Event Management Course Number: MGMT-401-01

Term: Fall Year: 2023

# Instructor: Dr. Alberto M. Poxes, Jr.

## Instructional Student and Program Learning Outcomes, including PEGs:

Demonstrate knowledge of preventive maintenance, facility planning and event management. Identify and discuss the key problems/current events with box office administration, house and grounds management, and systems management.

Comment and discuss the potential solutions to marketing, financing, and personnel administration of facilities and events management problems.

## **Program Learning Outcomes:**

The purpose of this course is to provide the student with an understanding of how to effectively manage a sport facility

To enhance students understanding of the history and philosophy of sport facilities and other public assembly facilities.

To bring awareness to the students of the major strides made in the development of sport facilities since its foundation

To increase students understanding of the role of the facility manager and the various concerns faced by facility managers

To help students understanding the broad array of responsibilities faced by facility managers **Course Outcomes Assessed:**

## **Comment on Grades:**

#### **Course Name: Sports Law**

#### **Course Number: MGMT-402-01**

Term: Fall

Instructor: Dr. Alberto M. Poxes, Jr.

## Instructional Student and Program Learning Outcomes, including PEGs:

Year: 2023

Demonstrate knowledge of the core concepts of sports as they relate to various categories of law, as well as study of ethics, legal liabilities of coaches, administrators, managers, and institutions related to the sport field.

Identify and discuss the key relationship of sports to various categories of the law, including torts, crimes and discrimination problems/current events.

Comment and discuss the potential solutions to the application of constitutional framework applicable to sports problems.

## **Program Learning Outcomes:**

Identify and discuss the relations of sports to various categories of the law, including torts, crimes, and discrimination.

Explain the role of the attorney and agent when representing athletes.

Relate principles of agency law in the sports context.

Understand the constitutional framework that surrounds sports.

Discuss contracts and terms, including important clauses relating to an endorsement agreement.

Differentiate between the legal issues unique to professional amateur sports.

Observe how criminal law differs from civil law in the context of sports.

Thus, course<br>objective was successfully<br>achieved.                                |  |
| Comment and discuss the<br>potential solutions for<br>marketing, financing, and<br>personnel administration<br>of facilities and event<br>management problems<br>within the framework of<br>strategic sport marketing. | Lecture, Assignment,<br>Group Project, and<br>Exams. | A grade of B/84 or above.<br>All students met this<br>benchmark. Results<br>indicates students'<br>understanding of key<br>sports marketing and<br>promotions processes and<br>problems/current events<br>confronting sports<br>marketers in the United<br>States. Thus, course<br>objective is successfully<br>achieved. |  |

The 3 exams administered were used to assess the student's problem-solving and critical thinking skills in understanding of sport marketing concepts such as marketing mix strategies, strategic marketing planning, sport marketing segmentation, sport marketing/business ethics, sport marketing strategic decision-making, and sport marketing promotional concepts applicable to sport marketing and event management. Assessment was also based on group projects which sought to expose the students of how to obtain historic sport marketing concepts of any country of their choice and analyze the patterns and trends in the United States.

### Data Analysis—Strengths of this course:

Most of the lectures were practical discussions of issues related to decision-making in the marketing of sports products, and the students were able to relate what they were being taught to the real-world problems confronting the sports franchises in the US and the global implications of the economy of sports at large. For example, students can now apply the relationship of sport marketing theory to management theory and relate these to the development of the sport industry. **Data Analysis—Improvements, such as changes in pedagogy, curriculum revision etc.:** 

Nothing to change here. The process was very successful and enabled the students to learn. Grade Distribution: # of students

### Course name: Economics and Sport Governance

Course Number: SPMT-345-80

Term: Spring Year: 2024

Instructor: Jessicca Baker

## Instructional Student Learning Outcomes:

- 1. Develop economic models that guide decisions in sports administration that are grounded in classical economic concepts.
- 2. Understand the economic foundations of the sport industry and recognize areas for growth.
- 3. Develop exceptional teamwork skills via working with others in solving problems, analyzing cases, and working in simulations.

## **Program Student Learning Outcomes:**

- 1. Demonstrate knowledge of the concepts of sport management and leadership.
- 2. Describe the various skills, roles, and functions of sport management.
- 3. Explain cultural traditions, social values, and psycho-social expériences related to sport.
- 4. Analyze ethical issues and moral commitment related to sport.
- 5. Explain principles of financial management, risk management, marketing, and human resources management in sport.
- 6. Explain public relations strategies and communication for sport organizations.
- 7. Demonstrate the ability to work with various diverse groups.

## Strengths of this course:

- 1. This course was offered Asynchronous online which allowed students flexibility with their athletic schedules.
- 2. Sport Governance and Economics of Sport helped students understand the supply and demand of sporting events, sport franchises, and sport products.
- 3. Students were evaluated via exams, review questions, simulations, and discussion posts. Students had multiple ways to learn and use information from the sport business industry.

#### Grade distribution:

| 8 | А  | 1 | C+ |
|---|----|---|----|
| 0 | В  | 4 | С  |
| 0 | B+ | 2 | D  |
| 8 | В  | 0 | F  |
| 0 | B- | 0 | Ι  |

**Comments on grades:** Grades were based on exams, discussion posts, discussion questions, and simulations. Students were given multiple learning assessments throughout the semester. **Improvements for next year**: No changes at this time. The course was effective and efficient. Students met the standard for the course.

## **Course Outcomes Assessed:**

#### **Course name: Sport Ethics**

## **Course Number: SPMT 320**

Term: Spring

Year: 2024

Instructor: Timothy Malroy

Instructional Student Learning Outcomes:

Understand the various philosophies surrounding the foundation for ethical reasoning

Understand how ethical foundations relate to sports context

Apply personal values to sports ethics both individually and generally

Evaluate specific codes of ethics as to their efficacy and efficiency in handling real world scenarios

## Program Student Learning Outcomes:

Recognizing and dealing with issues of ethical and social responsibility in business

Effectively communicating orally and in writing

**Strengths of this course:** Application of ethical principles and decision making through casestudy scenarios. Self-reflection and critical thinking skills in crafting an ethics autobiography. **Grade distribution:** 

| 8  | А  | 5 | C+ |
|----|----|---|----|
| 6  | A- | 0 | С  |
| 11 | B+ | 0 | F  |
| 4  | В  | 0 | Ι  |
| 3  | В- |   |    |

#### **Comments on grades:**

#### **Improvements for next year:**

-A bit more explanation on expectations and earlier feedback on assignments at the beginning of the term in order to see improvement in writing/discussions.

#### **Course Outcomes Assessed:**

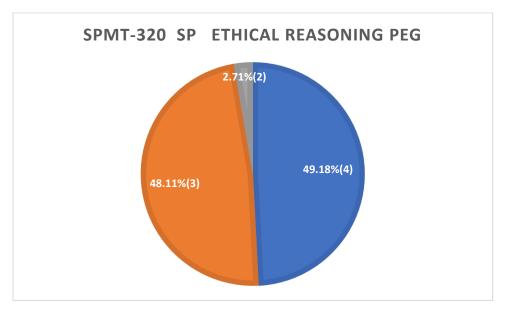

| Key 5 Course<br>Outcomes | Assessment<br>Method | Criteria for<br>Success | Summary of<br>Data | Use of Data |
|--------------------------|----------------------|-------------------------|--------------------|-------------|

## **Global Perspective Course and Certification (Part of Uni GP PEG)**

Course Name: Intro. to Tourism & Hospitality MGMT Course Number: THMT-125-01

Term: Fall Year: 2023

Instructor: Dr Zahra Mohebbi

## Instructional Student and Program Learning Outcomes, including PEGs:

- To describe the history and development of the tourism and hospitality industry. (BT2)
- To discuss the tourism and hospitality industry and the relevant key terms. (BT2)
- To analyze the key factors responsible for the growth and development of hospitality and tourism. (BT4)
- To describe the current trends and challenges faced by the tourism and hospitality industry in the context of global economic, environmental, health and other social concerns. (BT2)
- To discuss hotel classifications and describe the different types of hotel ownership and development, i.e. franchising and management contracts. (BT2)
- To identify possible career paths with emphasis on the vast opportunities open to those who possess the knowledge, skills and personal qualities expected of potential industry leaders. (BT2)
- To discuss the importance of effective leadership and management, and the characteristics of effective leaders in the hospitality industry. (BT2)
- To evaluate the various aspects of tourism in the hospitality industry. (BT5)
- To identify and explain how technological changes and financing affect the tourism and hospitality industry. (BT2)
- To examine trends and changes in the tourism and hospitality industry, and how they relate to plans, designs, locations, procedures, materials, equipment and supplies. (BT4)

#### **Certificate Learning Outcome:**

- Create favorable guest experiences by using professional service management techniques in a tourism and hospitality business environment. (Guest Experience and Service Techniques)
- Analyze, organize, and interpret perspectives or alternatives to problems in tourism and hospitality operations. (Problem analysis)
- Contribute to positive team performance in a hospitality business environment by appraising and managing one's own team-related competencies, in particular, the knowledge, skills, and attitudes considered transportable from one team to another. (Team Contribution)
- Integrate human, financial, and physical resource management into tourism and hospitality operations and model the behaviors of effective, ethical leaders by demonstrating the fundamental principles of leadership. (Resource Integration)
- Practice professional ethics, provide leadership, demonstrate personal and global responsibility, and work effectively as a team member. (Ethical Practice)
- Ability to work in a diverse work atmosphere. (Diversity Skills)
- Identify the global nature of the hospitality industry with specific emphasis on the cultural, economic, and social impacts of tourism. (Global Awareness)
- Analyze and apply various tourism and hospitality revenue management strategies to ensure organizational profitability. (Revenue MGMT)

| Course Outcomes Assessed:                                                                                                                                                                                                 |                                                                 |                                                                                                                                                |                                                                                                                                         |  |  |  |  |

# Data Analysis—Strengths of this course:

Based on grades analysis: 85% of students met the benchmark but three students have "Incomplete" grade.

Based on THMT analysis 98.75% students met the benchmark.

**Data Analysis—Improvements, such as changes in pedagogy, curriculum revision etc.:** This course provides an overview of the hospitality and tourism industry, its growth and development, industry segments and their distinguishing characteristics, trends and current concerns. Students are introduced to career opportunities and the employability skills needed to succeed in specific hospitality fields. Students enrolled in class were mainly freshman and all successfully met the benchmark except three student that need to complete the course later. **Benchmarks:** 

At department level, we are thinking to work on two types of benchmarks.

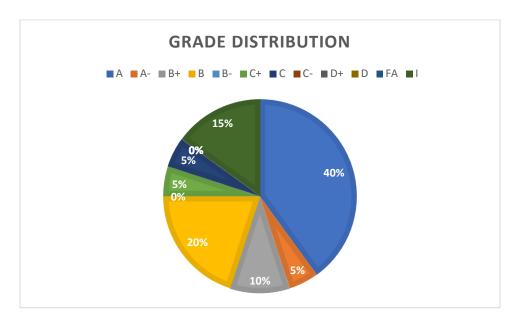

1. <u>Program Benchmark:</u> for the whole program

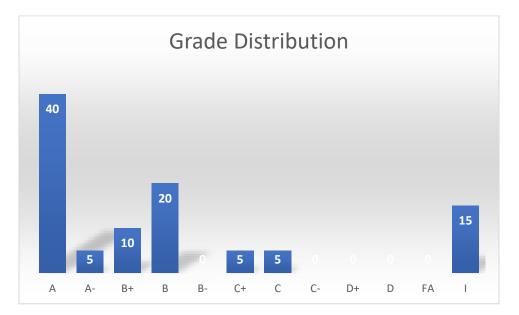

2. <u>*Performance Benchmark:*</u> for each course Performance Benchmark for this course: Since most of the students in this course were freshmen, a grade of C or higher is to be considered the benchmark for this topic.

#### Grade Distribution :

| A (40%)  |                                           | 1 (5%)                                    | C+                                                                                                 |

# **Results Based on Based on Grades and PLOs** <u>MBA Rubrics and Grades</u>

#### PLO1:

MBA-520 (Introductory, Advanced, & Mastery) SP (1 section) MBA-520-80: based on grades 87.5% met the benchmark of B- or above.

based on MBA PLO rubrics: 83.34%

#### PLO2:

MBA-500 (Introductory, Advanced, & Mastery) SP (1 section) MBA-500-80: based on grades 92% met the benchmark of B- or above. based on MBA PLO rubrics: 93%

# PLO3:

MBA-503 (Introductory, Advanced, & Mastery)

Offers Summer, data and result will be added later.

#### PLO4:

MBA-531 (Introductory, Advanced, & Mastery) FA (1 section) MBA-531-80: based on grades 88.23% met the benchmark of B- or above. based on MBA PLO rubrics: 86.76%

#### **MSA Rubrics and Grades**

#### PLO1:

MSA-541 (Introductory, Advanced, & Mastery) Not offered in AY 23-24.

#### PLO2:

MSA-554 (Introductory, Advanced, & Mastery) Offers Summer, data and result will be added later.

#### PLO3:

MBA-503 (Introductory) Offers Summer, data and result will be added later. MSA-560 (Advanced, & Mastery) Offers Summer, data and result will be added later.

#### **PLO4:**

MSA-560 (Introductory, Advanced, & Mastery) Offers Summer, data and result will be added later.

#### PLO5:

MSA-534 (Introductory) SP (1 section) MBA-534-50: based on grades 100% met the benchmark of B- or above.

#### based on MSA PLO rubrics: 90%

#### **Overall Students Performance Based on MBA PLOs Rubric**

| PLO1   | PLO2 | PLO3           | PLO4   |
|--------|------|----------------|--------|

| year.            |                |               |               |      |

DOB has no data from previous years (at least the last five). DOB, based on the proposed plan, has already started collecting all data and results to evaluate student and instructor performance, as well as the entire DOB's MBA and MSA programs.

# MBA/MSA Course Evaluation Fall 23

#### **Course Name: Organizational Behavior**

Course Number: MBA-500-80 Instructor: Dr. Julius Monk

### Term: Fall I Year: 2023

# **Instructional Student Learning Outcomes:**

At the end of this course, students should be able to articulate the connection between theories of organizational behavior and practical implementation within their own organizations. Students will study literature involving conflict management, social relationships at work, and job satisfaction and motivation. Additionally, students will explore workplace issues such as risk aversion, managing sensitive information and downsizing. Upon course completion, students can apply what they learn to effectively utilize organizational behavior theories to create more productive work environments. Students will demonstrate mastery through successful completion of assignments and discussion boards.

#### **Program Student Learning Outcomes:**

Upon completion of this course, students will be able to apply key organizational behavior concepts and theories to other MBA course work and beyond. They will have requisite knowledge to effectively lead and work within diverse teams within an academic or business environment.

#### Strengths of this course:

The course is well laid out and divided into learning modules that are comprised of presentations from each chapter included, as well as resource videos and articles. Each module contains weekly discussions and assignment exercises that allow students to practice what they have learned within the module. Also, students are given a week to complete assignments, which allows flexibility for work or athletics.

# Grade distribution:

| 11 | А  |   | C+ |
|----|----|---|----|
|    | A- | 1 | С  |
|    | B+ | 1 | F  |
| 12 | В  |   | Ι  |
|    | В- |   |    |

#### **Comments on grades:**

Overall, students did well in the class. Grades were lower for students who did not turn in assignments or fully participate in weekly discussions.

#### **Improvements for next year:**

Develop opportunities for simulated case studies and enhance discussion forums so that students work more collaboratively to discuss, debate and solve problems.

| Key 5 Course | Assessment | Criteria for Success | Summary | Use of |

# Course Name: Effective Managerial Communications Course Number: MBA-531-80

Year: 2023 Inst

Instructor: Dr. Julius Monk

# **Instructional Student Learning Outcomes:**

At the completion of this course, students should be able to understand theories, concepts and principles of business communications. Upon course completion, students can apply what they learn to effectively communicate verbally and in writing, whether in academic, professional or personal settings. Additionally, students study various types and styles of written and oral communications, as well as the importance of listening. Students will demonstrate mastery through successful completion of assignments and online communications, by creating their own written and oral communications, as well as evaluating the work of others.

# **Program Student Learning Outcomes:**

Students will be able to communicate complex ideas through the development of written and verbal communication skills and competencies, which they can use to be successful communicators in academic and business settings.

# Strengths of this course:

Term: Fall II

The course is well laid out and divided into learning modules that are comprised of presentations from each chapter included, as well as resource videos and articles. Each module contains weekly discussions and assignment exercises that allow students to practice what they have learned within the module. Also, students are given a week to complete assignments, which allows flexibility for work or athletics.

# Grade distribution:

| 12 | А  | 0 | C+ |
|----|----|---|----|
| 0  | A- | 1 | С  |
| 0  | B+ | 1 | F  |
| 3  | В  | 0 | Ι  |
| 0  | В- | 0 |    |

# **Comments on grades:**

Overall, students did well in the class. Grades were lower for students who did not turn in assignments or fully participate in weekly discussions.

# Improvements for next year:

Introduce virtual communication workshops so students can participate in role playing exercises in real-time.

### **Course name: Quantitative Business Analysis**

Term: Fall Year: 2023

#### Course Number: MBA 505-80

Instructor: Dr. Mitchell Miller, CFP®

### **Instructional Student Learning Outcomes:**

- 1. Understand the role of project management in contemporary management science.
- 2. Discuss organizational strategy as it relates to project selection.
- 3. Evaluate risk in the context of managerial decision-making.
- 4. Evaluate progress and performance measures.
- 5. Analyze feasibility if international projects.

#### **Program Student Learning Outcomes:**

PLO1 Integrate concepts within and across business disciplines to promote strategic goals and solve complex problems by applying theoretical and practical models

PLO2 Manage projects and teams using innovative leadership and communication skills through negotiating conflict and by using effective leadership skills

PLO3 Integrate ethical, evidence-based decisions to solve complex business problems leveraging a variety of quantitative, qualitative, and information technology tools

PLO4 Demonstrate written and oral forms of effective business communication

#### Strengths of this course:

- 1. Sound curriculum design
- 2. The use of literature review accomplished through article review assignments.

#### Grade distribution:

| 14 | А  |   | C+     |
|----|----|---|--------|
|    | А- |   | С      |
|    | B+ | 1 | F (FA) |
| 2  | В  |   | Ι      |
|    | B- |   |        |

#### **Comments on grades: None**

# **Course name: Managerial Economics**

Term: FALL

# **Instructional Student Learning Outcomes:**

Apply economic principles to managerial decision-making.

Discuss demand analysis and forecasting from the perspective of senior managers.

**Year: 2023** 

Evaluate key economics concepts and their application to profitability and cost analysis.

Evaluate capital investment decisions.

Analyze production and output decisions with special emphasis on risk management.

# **Program Student Learning Outcomes:**

PLO1 Integrate concepts within and across business disciplines to promote strategic goals and solve complex problems by applying theoretical and practical models

PLO2 Manage projects and teams using innovative leadership and communication skills through negotiating conflict and by using effective leadership skills

PLO3 Integrate ethical, evidence-based decisions to solve complex business problems leveraging a variety of quantitative, qualitative, and information technology tools

PLO4 Demonstrate written and oral forms of effective business communication

# Strengths of this course:

1. Focus on application.

2. Cost-effective approach to course design achieved through use of an open-source text. Grade distribution:

# **MBA/MSA Course Evaluation Spring 24**

# Course name:Managerial Policy and StrategyTerm:Spring IYear:2024

# Course Number: MBA 520-80 Instructor: Julius Monk

# **Instructional Student Learning Outcomes:**

At the completion of this course, students should be able to understand theories, concepts and principles of strategic planning and governance. Additionally, students will learn to formulate coherent and actionable strategies that align with an organization's mission, vision, and values. Students will understand the key components of the strategic planning process, including goal setting, environmental scanning, strategy formulation, implementation planning, and performance evaluation. Upon course completion, students will recognize the ethical implications of strategic decisions and consider the broader social and environmental impacts of business actions in their strategic planning processes, including challenges and opportunities associated with operating in a global business environment.

# **Program Student Learning Outcomes:**

Students will acquire leadership skills necessary to lead strategic change initiatives, including managing resistance, inspiring organizational commitment, and fostering a culture of innovation and agility.

# Strengths of this course:

The course is well laid out and divided into learning modules that are comprised of presentations from each chapter included, as well as resource videos and articles. Each module contains weekly discussions and assignment exercises that allow students to practice what they have learned within the module. Also, students are given a week to complete assignments, which allows flexibility for work or athletics.

# Grade distribution:

| 11 | А  | 1 | C+ |
|----|----|---|----|
|    | A- | 3 | С  |
|    | B+ |   | F  |
| 9  | В  |   | Ι  |
|    | В- |   |    |

# **Comment on grades:**

Overall, students did well in the class. Grades were lower for students who did not turn in assignments or fully participate in weekly discussions.

# Improvements for next year:

Introduce virtual SWOT analysis workshops so students can practice and ask questions prior to submitting their SWOT analysis assignments.

#### **Course Name: Management of Sport**

Term: Spring I Year: 2024

# Course Number: MBA 572D-01

Instructor: Dr. Alberto M. Poxes, Jr.

# Instructional Student and Program Learning Outcomes, including PEGs:

Demonstrate knowledge of the core sport management goals and concepts.

Identify and discuss the key sport management problems/current events.

Comment and discuss the potential solutions to sport management problems.

### **Program Learning Outcomes:**

Understand the components of sports administration/management, recreation and physical health.

Administer basic athletic evaluations.

Design and teach group activity classes for all types of sport participants.

Design fitness programs based on specific needs and health evaluation results.

Develop leadership and communication skills related to recreation and health promotion.

| 5 Key Course Outcomes                                                           | Learning Activities/<br>Assignments                       | Benchmarks/<br>Performance Indicator                                                                                                                                                                                                                                                    | Results                                                                                                                                                            |

|                  |                     |                            |  |

# Data:

The 3 exams administered were used to assess the student's problem-solving and critical thinking skills in understanding of sport management concepts such as organizational theories, organizational behavior, business ethics, strategic decision-making, and human resources. Assessment was also based on group project which sought expose students how to obtain historic management theories applicable to sport of any country of their choice and analyze the patterns and trends in the United States.

# Data Analysis—Strengths of this course:

Most of the lectures were practical discussions of issues related to decision-making, and the students were able to relate what they were being taught to the real-world problems confronting the US and the global economy at large. For example, students can now suggest which policy response (i.e., equal pay, Title IX, Disabilities accommodations for athletes and regulation and/or deregulation of sport businesses).

Data Analysis—Improvements, such as changes in pedagogy, curriculum revision etc.:Nothing to change here. The process was very successful and enabled the students to learn.# of studentsGrade Distribution:# of students

# **Comments on Grades:**

The grade distribution of the class affirms the belief that the strategy of approach to teaching the students were very effective.

#### **Course name: Management of Financial Resources**

**Course Number: MBA-508-80** 

Instructor: Dr. Mitchell Miller, CFP®

Term: SPRING

# Year: 2024

**Instructional Student Learning Outcomes:** 

Identify the goal of financial management

Describe the challenges associated with the agency relationship

Recognize each of the key financial statements and identify the kinds of information they provide to corporate managers and investors.

Synthesize the information given by financial ratios to determine the financial condition of a firm Discuss capital budgeting decisions

Analyze dividend policies and financial planning models

# **Program Student Learning Outcomes:**

PLO1 Integrate concepts within and across business disciplines to promote strategic goals and solve complex problems by applying theoretical and practical models

PLO2 Manage projects and teams using innovative leadership and communication skills through negotiating conflict and by using effective leadership skills

PLO3 Integrate ethical, evidence-based decisions to solve complex business problems leveraging a variety of quantitative, qualitative, and information technology tools

PLO4 Demonstrate written and oral forms of effective business communication

#### Strengths of this course:

Focus on application.

Cost-effective approach to course design achieved through use of an open-source text.

# Course name: Negotiation and Conflict Management

### Course Number: MBA-599-80

Term: Spring II

Year: 2024

Instructor: Julius Monk

### **Instructional Student Learning Outcomes:**

Students will be able to discuss fundamental and technical concepts for strategically negotiating individual and multi-party negotiations. Additionally, students will be able to assess negotiation strategies and their associated outcomes, as well as examine ethical principles of negotiating. Students will integrate their beliefs and opinions into developing negotiation strategies.

# **Program Student Learning Outcomes:**

At the end of this course, students should have gained practical knowledge for improving their personal and professional techniques of negotiation and conflict management.

#### Strengths of this course:

The course is well laid out and divided into learning modules that are comprised of presentations from each chapter included, as well as resource videos and articles. Each module contains weekly discussions and assignment exercises that allow students to practice what they have learned within the module. Also, students are given a week to complete assignments, which allows flexibility for work or athletics.

#### Grade distribution:

| 3 | А  | 1 | C+ |
|---|----|---|----|
|   | A- |   | С  |
| 4 | B+ | 1 | F  |
| 1 | В  |   | Ι  |
|   | B- |   |    |

#### **Comment on grades:**

Overall, students did well in the class. Grades were lower for students who did not turn in assignments or fully participate in weekly discussions.

#### Improvements for next year:

Introduce virtual negotiation assignments so students can participate in role playing negotiating exercises in real-time.

| Key 5 Course                       | Assessment                                                             | Criteria for Success                                                                                                                                                                                                                                     | Summary | Use of |

## **Course name: Auditing & Prof Auditing Stds**

**Course Number: MSA 534-30** 

Instructor: Fred Rossell

Term: Spring

Year: 2024

## Instructional Student Learning Outcomes:

Identify and explain the environment and theoretical structure of auditing.

Describe the role of Public Accountant in the American economy.

Demonstrate the ability to prepare and perform the audit function.

Identify and access general research materials.

# Program Student Learning Outcomes:

Explain, integrate, and perform advanced concepts in accounting, finance, management, and economics

Apply knowledge and understanding of federal tax laws and procedures on businesses and individuals

Explain the ethical implications and responsibilities of ensuring financial integrity Demonstrate written and oral forms of effective business communication

Demonstrate knowledge of U.S. financial reporting standards and auditing standards for corporate financial reporting and attestation.

Section D: Results/Findings

## Comparison of AY 22-23 and AY 23-24:

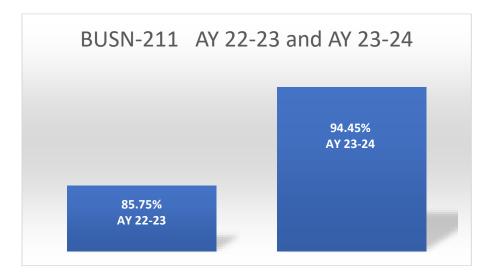

DOB lacks data for all courses across undergraduate and graduate programs from the previous year. Additionally, there is no available data for graduate programs for the past few years, spanning at least the last five years. The academic year 23-24 marks the first year in which DOB has gathered data for graduate programs and assessed courses based on the program's PLOs.

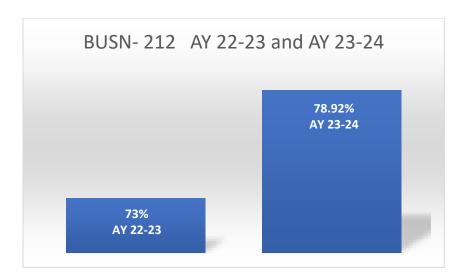

The Sport Management program was not operational in the previous year, having been retired several years ago and subsequently reinstated for the academic year 23-24.

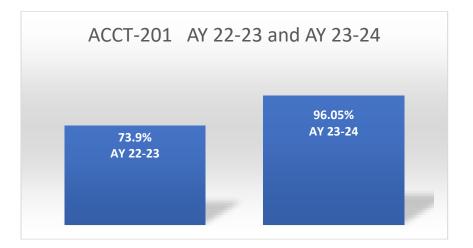

During the academic year 22-23, only courses from the ACCT and BUSN programs were evaluated based on PLOs, specifically BUSN-211, BUSN-212, ECON-211, and ACCT-201. A comparison of the results between the academic years 22-23 and 23-24 is presented below:

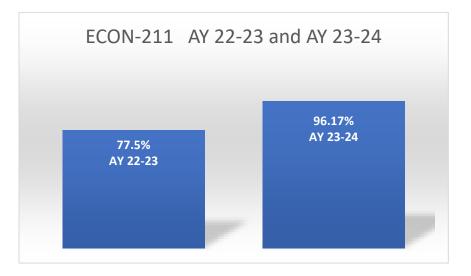

|          | AY 22-23                 | AY 23-24                 |
|----------|--------------------------|--------------------------|
| BUSN-211 | 85.75% met the benchmark | 94.45% met the benchmark |
| BUSN-212 | 73% met the benchmark    | 78.92% met the benchmark |
| ACCT-201 | 73.90% met the benchmark | 96.05% met the benchmark |
| ECON-211 | 77.5% met the benchmark  | 96.17% met the benchmark |

Results from last year and this year for the above-mentioned courses show a significant improvement in students' performance.

Business Department

Program Review

AU 2023-2024

Prepared by: Zahra Mohebbi, Ph.D.

## **Business Department Program Reviews**

#### I. Executive Summary

The majority of the business department's full-time faculty members are recent additions. Dr. Younkins stands out as the sole full-time faculty member who has been with the department for the past 50 years. Dr. Mohebbi, Dr. Corbett, Dr Fosu, and Dr. Poxes came on board during the academic year 2022-2023, while Dr. Steitz and Prof. Parry joined the department in the academic year 2023-2024.

During the academic year 2022-2023, the business department implemented several significant changes. Firstly, they introduced a new concentration in "Sport Management" and adjusted the required courses for the business major, including the addition of Business Statistics as a mandatory course for both business and accounting majors. Furthermore, accounting majors were required to undertake an internship as part of their curriculum. In addition to these adjustments, the business department also developed a Sport Management major, which received approval from the undergraduate committee. Furthermore, they crafted a Professional Certificate program in Digital Marketing, which was also approved by the undergraduate committee. Moreover, the department revisited the Financial Management concentration, refining its focus to align closely with the recent skills and knowledge essential for the current job landscape. During the academic year 2023-2024, the business department enacted significant curriculum changes in response to evolving job market demands. These modifications, now in effect, reflect the department's ongoing commitment to enhancing educational relevance. As part of this ongoing effort, the department decided to incorporate a Business Communication course into its curriculum, making it a mandatory requirement for both Business Administration and Accounting majors. This proposal has already received approval from the committee and will be implemented starting the academic year 2024-2025. Furthermore, the business department undertook a revision of its MBA curriculum to ensure its alignment with current industry needs. The updated MBA curriculum is scheduled to take effect from the Fall semester of 2024. These proactive measures underscore the department's commitment to providing students with relevant and practical skills essential for success in today's dynamic business environment. Note: our department's program review focuses on the past two years. As none of the previous chairs and faculty members are currently with us, there's a lack of reliable information concerning earlier periods.

#### **II. Program Goals (Learning & Operational)**

• What is program's mission, learning goals, and operational goals? Department of business mission:

The mission of the Wheeling University Business Department is to deliver high-quality business students that have learned the talents of leadership, social responsibility, and the core competencies of the business environment. The Department of Business programs empower students to use relevant business knowledge, think critically, analyze and solve problems, communicate effectively, and make decisions ethically and professionally. Learning goals:

#### **Business Administration program learning goals:**

- 1. Demonstrate working knowledge of basic concepts and principles in business.
- 2. Demonstrate the value of personal and professional effective communication.
- 3. Critically analyze, think logically, and apply analytical methods for business problems.

- 4. Demonstrate an appreciation of ethical implications in managerial functions.
- 5. Develop the capacity to work harmoniously and effectively with others

## Accounting program learning goals:

- 1. Explain, integrate, and perform basic fundamental concepts in accounting, finance, marketing, management, and economics.
- 2. Critically analyze, think logically, and apply analytical methods and skills for business problems.
- 3. Explain the ethical implications and responsibilities of ensuring integrity of financial integrity.
- 4. Demonstrate the value of personal and professional effective communication.
- 5. Apply knowledge of GAAP, FASB, GASB, and managerial accounting theories to businesses, state and local governments, and nonprofit organizations.
- 6. Apply knowledge and understanding of federal tax laws and procedures on businesses and individuals.

## Sport management program learning goals:

- 1. Demonstrate knowledge of the concepts of sport management and leadership.
- 2. Describe the various skills, roles, and functions of sport management.
- 3. Explain cultural traditions, social values, and psycho-social experiences related to sport.
- 4. Analyze ethical issues and moral commitment related to sport.
- 5. Explain principles of financial management, risk management, marketing, and human resources management in sport.
- 6. Explain public relations strategies and communications for sport organizations.
- 7. Demonstrate the ability to work with various diverse groups.

## Master of Accountancy leaning goals:

- 1. Explain, integrate, and perform advanced concepts in accounting, finance, management, and economics.
- 2. Apply knowledge and understanding of federal tax laws and procedures on businesses and individuals.
- 3. Explain the ethical implications and responsibilities of ensuring financial integrity.
- 4. Demonstrate written and oral forms of effective business communication.
- 5. Demonstrate knowledge of U.S. financial reporting standards and auditing standards for corporate financial reporting and attestation.

## Master of Business Administration leaning goals:

- 1. Integrate concepts within and across business disciplines to promote strategic goals and solve complex problems by applying theoretical and practical models.
- 2. Manage projects and teams using innovative leadership and communications skills through negotiating conflict and by using effective leadership skills.
- 3. Integrate ethical, evidence-based decisions to solve complex business problems leveraging a variety of quantitative, qualitative, and information technology tools.
- 4. Demonstrate written and oral forms of effective business communication.

## **Operational goals:**

The DOB utmost priority is student learning, which we prioritize through ongoing scrutiny of our curricular offerings, a strong emphasis on student engagement, and effective pedagogy. The DOB employs a diverse array of delivery methods, including

online, face-to-face, and blended formats, to cater to different learning preferences and needs.

The DOB faculty members are highly qualified, possessing academic and/or professional expertise. They hold appropriate degrees, make recent intellectual contributions, and/or boast relevant professional experience, ensuring that students receive instruction of the highest caliber.

• How do the learning and operational goals support the College mission?

The Catholic education values that drive our university's culture are foundational to the mission and primary educational goals of WU. Within this context, the Department of Business (DOB) has developed its own vision and mission, which are aligned with the university's overarching objectives. The learning and operational goals within DOB are essential elements of this alignment, serving as integral components of the college mission. They play a crucial role in supporting the institution's commitment to academic excellence, ethical leadership, and holistic student development, thereby contributing to the fulfillment of WU's broader educational mission.

- 1. Educating for Life: The university integrates Catholic traditions of excellence and service into all programs. By blending learning, research, and economic development with classical knowledge and Christian revelation, Wheeling University fosters competence, creativity, and innovation. Graduates are equipped with socially responsible goals, a thirst for lifelong learning, and a commitment to improving the world.
- 2. Educating for Leadership: Wheeling University welcomes individuals of all backgrounds to pursue excellence together. It emphasizes close student-faculty relationships and encourages students to reach their full leadership potential. Grounded in the liberal arts and the example of Jesus Christ, the university aims to produce intelligent, moral leaders who advocate for Catholic values of faith, peace, and justice.
- 3. Educating Men and Women for Others: While nationally and internationally focused, Wheeling University also values its role in its immediate community. It educates local individuals to enrich their communities and believes in preparing graduates to use their talents for the service of others. The university's mascot, "Iggy" the Cardinal, embodies these values, named after Saint Ignatius of Loyola, the founder of the Jesuits.
- Describe the process by which goals are developed and adopted in the department. Developing and adopting goals within the Department of Business (DOB) is a methodical process that ensures alignment with the institution's mission and values, particularly emphasizing Catholic education principles. The DOB aligns its goals with the broader educational objectives of the university while addressing department-specific needs. These goals are integrated with the university's primary educational goals (PEG) mission courses, which span topics such as "Principles of Management", "Conceptual Foundation of Business", "Strategic Business Planning", Sport Management", "Diversity and Inclusion in Sport Management", "Senior Seminar Sport Management", and "Ethical Issues in Tourism and Hospitality Management".

#### **III.** Curriculum

• Analyze the curriculum map(s). Do the current curriculum requirements provide sufficient opportunities for students to achieve the learning goals? Indeed, through recent curriculum changes and revisions across all programs, the Department of Business has made a concerted effort to furnish students with ample

opportunities to attain their learning objectives. Please access DOB's TEAMS page to locate the complete curriculum map.

# • Describe how the curriculum is structured to allow for a congruent learning experience.

The curriculum is meticulously crafted to align with the school's mission, the Department of Business (DOB) mission, and the evolving demands of the industry and job market. To ensure relevance and effectiveness, we consistently review and revise the curriculum as needed. Over the past two academic years, significant adjustments have been made to both core and required courses, all of which are detailed in the school catalog.

• Describe the extent to which the program's curricular offerings support the Core program and/or requirements in other majors outside the department. The Department of Buildings (DOB) provides several courses that are included in the general curriculum, allowing students from other disciplines to enroll based on their interests. Additionally, the DOB offers numerous elective courses, providing students with opportunities to explore topics they find intriguing. Moreover, the DOB presents two minors and four professional certifications that are open to students from various disciplines. Notably, one of these professional certificates, "Integrated Marketing Communication," is a collaborative effort between the DOB and the Communication department. Furthermore, the department collaborates with the Department of Biology to

offer a major in "Healthcare Management," showcasing interdisciplinary collaboration within the institution.

• Describe how the curriculum includes diverse perspectives and addresses issues relevant to diversity initiatives.

The business program curriculum was specifically created to accept multiple points of view and address challenges related to diversity efforts in a variety of ways. The DOB courses include case studies, readings, and discussions that emphasize varied viewpoints in business, such as examples from many cultures, locations, and demographics. This enables students to investigate how race, ethnicity, gender, and socioeconomic status affect business practices and outcomes. Each semester, we attempt to have three guest speakers from different backgrounds to share their experiences and views with students. These speakers provide distinct insights on inclusive leadership, workplace diversity, and the value of representation in business. During the academic year 2022-2023, our department organized the "Lunch with a CPA" event, where we welcomed three Certified Public Accountants (CPAs) to share their invaluable insights and experiences with students studying accounting and finance. In the academic year 2023-2024, our department organized the "3Gs Event; Meet and Greet; Learn About Financial Management As A Career; Obtaining, Growing, and Monitoring Your Credit; Sport Management As A Career; Lunch With A CPA" events. Students can participate in experiential learning activities, such as internships, which expose them to a variety of business contexts and approaches. This hands-on training enables students to gain cultural competency and adaptation in real-world situations.

#### Describe how the curriculum has changed over the 5-year review period.

*What informed these changes?* During the academic year 2022-2023, the business department implemented several significant changes. Firstly, they introduced a new concentration in "Sport Management" and adjusted the required courses for the business major, including the addition of Business Statistics as a mandatory course for both business and accounting majors. Furthermore, accounting majors were required to undertake an internship as part of their curriculum. In addition to these adjustments, the business department also developed a Sport Management major, which received approval from the undergraduate committee. Furthermore, they crafted a Professional Certificate program in Digital Marketing, which was also approved by the undergraduate committee. Moreover, the department revisited the Financial Management concentration, refining its focus to align closely with the recent skills and knowledge essential for the current job landscape.

During the academic year 2023-2024, the business department enacted significant curriculum changes in response to evolving job market demands. These modifications, now in effect, reflect the department's ongoing commitment to enhancing educational relevance. As part of this ongoing effort, the department decided to incorporate a Business Communication course into its curriculum, making it a mandatory requirement for both Business Administration and Accounting majors. This proposal has already received approval from the committee and will be implemented starting the academic year 2024-2025. Furthermore, the business department undertook a revision of its MBA curriculum to ensure its alignment with current industry needs. The updated MBA curriculum is scheduled to take effect from the Fall semester of 2024. These proactive

measures underscore the department's commitment to providing students with relevant and practical skills essential for success in today's dynamic business environment. Note: All details are available on the undergraduate and graduate catalogs.

• What experiential or co-curricular opportunities does the program provide for its students (e.g. student-faculty research, clinical experiences, internships)? How many students participated in these experiences during the 5-year review period? The department of business has internship available to all students in any majors (business, accounting, and sport management). Over the past five years, approximately 15 students have participated in internships, providing valuable real-world experience and enhancing their academic and professional development

#### IV. Students & Assessment of Student Learning

- How has enrollment in the program changed over the 5-year review period? The DOB regret to inform you that the information we were able to retrieve does not include data for the academic years 2021 and 2022. Between 2019 and 2023, the Business program experienced steady growth in enrollment, starting with 106 students in 2019, increasing to 148 students in 2020, and reaching 178 students by 2023. Similarly, the accounting program saw an upward trend in enrollment numbers, with 6 students in 2019, 4 students in 2020, and a substantial jump to 18 students in 2023. Additionally, in 2023, there were a total of 32 MBA students and 1 MSA student enrolled, further contributing to the academic diversity of the institution. The data clearly indicates a consistent increase in student enrollment over the years, especially within the Business program.
- Describe the involvement program faculty have when recruiting, enrolling, and retaining students. The DOB faculty members are actively involved in engaging with prospective students, providing them with comprehensive information about all available opportunities. They take the time to introduce our various programs, required courses, concentrations, as well as the professional certificates we offer. Additionally, our faculty participate in school open houses and orientation sessions, where they have the opportunity to engage in face-to-face discussions with new students and their families, offering insights and guidance to help them navigate their educational journey effectively. The DOB faculty members are dedicated to advising students on their academic progress and helping them determine the best course of action for their individual needs. This advising process is ongoing, with faculty members regularly guiding students through course selections, helping them plan their schedules, and offering support as needed. By maintaining open lines of communication and providing personalized guidance, our faculty ensure that students receive the assistance they need to succeed academically and reach their goals effectively.
- Describe how students' interests, needs, and/or academic preparedness have changed over the 5-year review period. The changes DOB have implemented in the curriculum are designed to align with both our students' needs and the demands of the job market. As a result, DOB have witnessed a notable increase in student engagement and enrollment in our programs. Additionally, current students have shown greater interest in

pursuing different concentrations and minors that we offer. These positive trends indicate that our efforts to adapt our curriculum to better meet the needs of both students and the job market are yielding tangible results.

- Describe the department's efforts to support the College's goals related to diversity, equity, and inclusion. Are all students achieving the program's outcomes, or are there inequities? The Department of Business is deeply committed to advancing the College's objectives regarding diversity, equity, and inclusion through a range of initiatives and actions. One key aspect of this commitment is our proactive approach to recruiting a diverse faculty and student body, ensuring that the business community within our department reflects a broad spectrum of backgrounds and perspectives. Our student body comprises individuals from nearly 30 countries, while our faculty members hail from three different countries. This diversity underscores our dedication to supporting initiatives that promote inclusivity and equity within our academic community and beyond.
- Summarize findings from ongoing assessments of student learning. What trends have emerged during the 5-year review period? For assessment purposes, it is required that each faculty member submits a course evaluation form at the end of each semester. This evaluation includes assessing student outcomes based on their grades as well as program learning outcome rubrics. However, it's important to note that our Learning Management System (LMS) transitioned from Blackboard to a new platform, Canvas, in the summer of 2023. Unfortunately, during this transition, we encountered technical issues resulting in the loss of some data and reports from previous years. Despite having backups and downloading all information, a system error has prevented us from accessing this data for future use and reporting purposes. You can find assessment results and data in the DOB assessment report, which is included in the annual report of the Department of Business (DOB).
- How did the program use assessment findings to improve student learning, curriculum and pedagogy, and professional development opportunities? Despite the challenges faced during the transition period, the program made use of available assessment reports to make informed adjustments to the curriculum and course design. These adjustments were aimed at improving student learning outcomes and expanding opportunities for professional growth and development. Through curriculum adjustments, the program sought to provide students with a more comprehensive and relevant educational experience. This may have involved updating course content to reflect emerging trends and technologies in the field, integrating hands-on learning experiences, or introducing new elective courses to broaden students' skill sets.
- How were results shared with relevant stakeholders and used to inform prospective students about the institution? The school's PEG (Primary Educational Goals) assessment reports, along with the program assessment reports, are readily accessible to the public on the school's website. This transparency ensures that stakeholders, including students, faculty, staff, and the broader community, have access to valuable insights into the school's ongoing assessment and improvement efforts. However, it is important to note that there is currently no report available for the academic year 2022-2023. The assessment committee, in collaboration with the department, is actively working to

address the gaps identified in the reports and ensure that a comprehensive and accurate report is made available to all stakeholders shortly on our website. This proactive approach underscores our dedication to transparency and accountability in our assessment and improvement processes.

#### V. Faculty

• Explain whether or not the number of faculty is sufficient to achieve the program's mission and goals.

In the academic year 2022-2023, the Department of Business at Wheeling University comprised five full-time faculty members. Full-time faculty teaching loads are 12 semester hours per semester (4 courses).

The DOB is currently in need of hiring new faculty for our finance and sport management. With three undergraduate programs and two graduate programs, DOB is seeking faculty with expertise in business management, HR management, accounting, business economics, finance, and marketing to meet our academic needs. Considering our student enrollment and program diversity, DOB requires a minimum of eight full-time faculty members in addition to our adjuncts. However, budget constraints due to the current financial exigency are posing challenges in hiring new faculty and meeting their expectations. Most of its undergraduate classes are conducted face-to-face, with a few hybrid courses taught by adjuncts. While its MBA program was initially fully online, it has transitioned since last year to offer a mix of online-hybrid and face-to-face classes to accommodate international students in our graduate programs.

The DOB is in need of a new position for a finance faculty, followed by a later addition for a sport management faculty. The DOB existing faculty members possess the requisite skills for their course assignments, aligning with their respective strengths. The primary focus of its full-time faculty is on undergraduate business students. During the summer semester I & II, full-time faculty members teach online MBA courses. Their main responsibility is teaching core business courses for which each faculty member is best qualified. Additionally, adjunct faculty members are utilized to teach upper-level courses within one of the five business concentrations, leveraging their specialized skills.

# • Describe how the faculty's expertise allow the department to achieve its mission and goals.

Our full-time faculty members: Dr David Corbett Dr Zahra Mohebbi (Business Chair) Prof. Lori Parry Dr Alberto Poxes Dr Colin Steitz Dr Edward Younkins

**Dr. David Corbett, is** a dedicated full-time faculty member and the Marketing Program Lead, brings a wealth of expertise to the marketing concentration. Holding a Doctor of Business Administration (D.B.A.) and possessing a Digital Marketing Certificate, he is well-equipped to guide students in the dynamic field of marketing. Dr. Corbett imparts his extensive knowledge through various courses, including BUSN-212 Principles of Marketing, BUSN-252 Consumer Behavior, BUSN-323 Digital Marketing, BUSN-420 Marketing Strategies, and MBA-502 Marketing Management. . His industry experience

spans an impressive 30 years, providing students with valuable perspectives and realworld applications in marketing.

**Dr. Zahra Mohebbi,** is an accomplished faculty member, serving as the undergraduate program lead in the Business Department. With a Ph.D. in History (Tourism Studies), specializing in Tourism Studies, she brings a unique interdisciplinary perspective to her role. Holding an Advanced Diploma in Human Resource Management and a Master's degree in Tourism and Hospitality Management, Dr. Mohebbi possesses a wealth of knowledge and expertise in various facets of business and management. Her expertise spans areas such as management, tourism, hospitality, culture, and international studies. Her multifaceted background, including a Bachelor's degree in Museum Management and four years of work experience in museums and the tourist and hospitality industry, enriches her teaching approach.

**Prof. Lori Parry,** joined our faculty in Fall 2023, brings a wealth of experience to her role. She holds two master's degrees, one in Business Administration and another in Human Resource Management. With this impressive academic background, she brings a multidisciplinary perspective to her teaching, enriching her students' learning experiences with a holistic understanding of both business management and human resources practices. With over 20 years of teaching experiences. Prof. Parry has an extensive industry background spanning two decades, enriching the learning experience with real-world insights.

**Dr. Alberto Poxes,** a devoted full-time faculty member and the Sport Management Program Lead, brings over 20 years of teaching experience to the department. Holding a Ph.D. in Higher Education Administration with a specialization in Sport Management, he has made significant contributions to the academic community. His coaching and referee experience, combined with his academic qualifications, create a dynamic learning environment for students. As the Sport Management Program Lead, Dr. Alberto Poxes stands as a respected figure, blending academic expertise with practical experience to shape the next generation of professionals in the sports industry. **Dr Colin Steitz,** is a recent addition to the academic team, assumed the role of Program Lead for Finance and Economics in the fall of 2023. With a Ph.D. in Economics and a Bachelor of Science degree in Economics, Colin brought a wealth of expertise to his new position. As a full-time faculty member and Program Lead, Colin Steitz exemplified dedication and leadership in the academic sphere. His passion for economics, coupled with his commitment to student success, made him a valuable asset to the department and an inspiration to aspiring economists and business professionals alike.

**Dr. Edward Younkins,** a dedicated tenured faculty member, serves as the ACCT Program Lead, bringing a wealth of expertise to the Accounting Department. Holding a Ph.D. in Accounting, an M.B.A., and a B.Sc. in Accountancy and Economics, Dr. Younkins boasts an extensive academic background that spans various facets of the field. With an impressive 51 years of experience teaching accounting courses, Dr. Younkins is a pillar of knowledge within the academic community. His commitment to excellence is further demonstrated through his certifications, including being a Certified Public Accountant (C.P.A.) in the State of West Virginia, a Certified Manager (C.M.), and holding a Certificate in Management Accounting (C.M.A.). Dr. Edward Younkins stands as a respected leader in the accounting program, combining his extensive academic achievements with a wealth of practical experience. His commitment to the development of students is evident through his long-standing tenure and multifaceted contributions to the accounting and business programs.

- Describe the methods used to assess teaching effectiveness in the program. The department of business uses different methods in order to assess teaching effectiveness:
  - 1. Student Evaluations: Students utilize IOTA360 for course and instructor evaluations at the end of each semester. Through IOTA360, students can anonymously evaluate different aspects of the course, such as the clarity of instruction, organization of materials, relevance of assignments, and overall effectiveness of the learning experience.
  - 2. Peer Review: The faculty of the Department of Business at Wheeling University undergo annual evaluations as part of the institution's faculty assessment process. The Faculty Evaluation Committee responsible for this task comprises a faculty council member and the department chair. This committee plays a crucial role in assessing faculty members' performance, considering various factors such as teaching effectiveness, scholarly contributions, service to the university and community, and adherence to institutional policies and values. The evaluation process aims to provide constructive feedback to faculty members, recognize their accomplishments, and identify areas for improvement.
  - **3. Self-assessment:** Each faculty member at Wheeling University's Department of Business is required to prepare a course assessment report at the conclusion of each semester. This report serves as a means for faculty to evaluate their courses comprehensively, review course outcomes, and identify areas for improvement.
  - 4. Evidence of Student Learning: Faculty collect and analysis evidences (exam grades, course completion rate, assignment and project scores, comparison with learning objectives, etc.) of their student learning on their course assessment report.

#### VI. Resources

• Explain whether or not the program's resources, including human resources, are sufficient to achieve its mission and goals. For years, the Department of Business grappled with a persistent challenge: a shortage of full-time faculty. This shortage posed a significant obstacle to maintaining an optimal faculty-to-student ratio, particularly in specialized areas like finance and sport management. With each full-time faculty member responsible for advising approximately 50 students, the burden of advising had become overwhelming, leaving little time for meaningful interactions or support. By taking proactive steps to address the shortage of full-time faculty and enhance our advising capabilities, we can ensure that we are better equipped to fulfill our mission and provide our students with the support and guidance they need to succeed.

• What resources will be needed during the next 5 years?

Indeed, addressing the shortage of full-time faculty is just one facet of DOB strategy to enhance the effectiveness and relevance of our Department of Business. In addition to recruiting more faculty members, DOB recognize the importance of engaging with local partners and industry stakeholders to enrich our curriculum and ensure that our programs remain aligned with the needs of the job market. Furthermore, direct communication with our students is essential to understanding their needs, preferences, and aspirations. By actively soliciting feedback through surveys, focus groups, and one-on-one discussions, we can gain valuable insights into areas where our programs can be improved, as well as identify emerging interests and opportunities for growth.

Additionally, conducting regular analyses of the job market allows us to stay abreast of evolving industry trends, skill requirements, and employment opportunities. Acknowledging the identified areas for improvement and the resources needed, it's crucial to recognize that transforming the Department of Business into a dynamic, industry-responsive institution will require time and collaboration. Recruiting additional faculty, engaging with local partners and industry, revising our curriculum, and enhancing student communication are multifaceted tasks that may encounter challenges like budget constraints and logistical hurdles. Our commitment, patience, and resilience will be essential as we strive to achieve our objectives.

#### VII. Program Strengths & Areas for Improvement

# • Summarize the program's current strengths and areas for improvement. Strengths:

The curriculum offered by our institution is meticulously designed to cater to the diverse interests and career goals of our students. We offer three undergraduate programs: Business Administration, Accounting, and Sport Management, each providing a solid foundation in their respective fields. Within the Business Administration program, students have the opportunity to specialize in six different concentrations: General Business, Management, Financial Management, Marketing, Human Resources Management, and Sport Management. Additionally, we provide two graduate programs: Master of Business Administration (MBA) and Master of Science in Accounting (MSA), offering advanced study opportunities for those seeking to further their education and career prospects. In addition to the degree programs, we also offer four professional certifications, providing students with the opportunity to gain valuable credentials in areas such as marketing, tourism and hospitality, sport leadership, and salesforce. Overall, our curriculum is designed to be comprehensive, flexible, and relevant, preparing students for success in today's dynamic and competitive business environment.

#### Weaknesses:

It's clear that our assessment process and reporting system are currently facing significant challenges, which could impede our ability to effectively evaluate student learning outcomes and make data-driven decisions. Some of the key weaknesses include:

- Losing important data from the previous year creates gaps in our assessment records, making it difficult to track progress over time and identify trends in student performance.
- The lack of consistency in the reports submitted by faculty members can lead to confusion and hinder our ability to compare results across different courses and programs.
- There appears to be confusion among faculty members regarding how and what to report, particularly in relation to the school's Primary Educational Goals (PEG) and the program learning goals for each department.
- The new Learning Management System (LMS) lacks built-in analysis tools, making it challenging for faculty to effectively mine data and extract meaningful insights from assessment data.

#### • What are the opportunities for growth over the next 5-years?

The Department of Business at Wheeling University is renowned for its diverse programs and curriculum, attracting the interest of prospective students. Beyond academic offerings, the university fosters a vibrant atmosphere with a wide array of co-curricular activities, enriching the overall student experience. Additionally, internship opportunities are available for interested students, with accounting and sport management majors required to complete internships as part of their curriculum. This combination of academic excellence and practical experience ensures that students receive a comprehensive education that prepares them for success in their chosen fields and creates opportunities for growth now and in future.

#### • What are the potential threats the program faces?

The DOB enrollment is confronted with several significant challenges. Firstly, the recent turnover in our higher administration, including the suspension of the school president, has introduced uncertainty that may deter prospective students. This instability could undermine confidence in the institution's leadership, potentially impacting enrollment numbers. Secondly, the Department of Business is facing a shortage of full-time faculty. It is imperative to rectify this by recruiting additional faculty, particularly in finance and sport management, to maintain an optimal faculty-to-student ratio. Failing to address this shortfall risks compromising the quality of education and may hinder our ability to attract students to these programs. Moreover, the nationwide increase in the cost of education and tuition fees presents a significant barrier. As tuition fees rise, affordability becomes a pressing concern for prospective students and their families, potentially discouraging enrollment. By addressing the turnover in higher administration and instilling stable leadership, we can rebuild trust and confidence in the institution. A cohesive and visionary leadership team can implement strategic initiatives to attract students and improve enrollment. Addressing the shortage of full-time faculty, especially in highdemand areas like finance and sport management, presents an opportunity to enhance the quality and reputation of our programs. Recruiting additional faculty members can also facilitate the development of new academic offerings, attracting a broader range of students. Embracing innovative educational models, such as online or hybrid learning formats, can expand access to education and attract non-traditional students. Leveraging technology and flexible learning options can differentiate our institution and appeal to a diverse student population. Establishing partnerships with industry leaders, community organizations, and other educational institutions can create opportunities for collaborative initiatives, research projects, and experiential learning opportunities. These partnerships can enrich the educational experience and attract students seeking practical, hands-on learning experiences.

• Based on the reflections provided in Sections III-VI, what are the program's plans and goals for the next 5-years? Please refer to DOB strategic plan available on annual report as well as Wheeling University strategic plan.

# MAY 2024

Wheeling University
